Subject: Attack ~ Website email from Richard Frates

Attack and Attack again, is the Best Defense: President Trump: Write publicly, on the faces of your Accusers, their hypocrisy, twisting of truth and deceitful motives. Announce the many times Obama's officials plead the fifth; Lois Lerner, and Loretta Lynch pleads the fifth on secret Iran Ransom. Special prosecutor's objective: Ignore the crimes of democrats and impute criminal motives to republicans. Trump, display fearless courage and fire the special prosecutor. And, when some political bastards protest; give them this deal: When a special prosecutor has investigated the crimes of Obama, Hillary, Eric Holder, Loretta Lynch and other democrats, who used the fifth amendment to hide their crimes; you will rehire this special prosecutor to continue his witch-hunt. Go on the offensive: being on the political defense, is an endless and fruitless fight. Your accusers, regardless of logic and truth, will blind their eyes to any defense, and continue to accuse, or bring charges. Make a few public addresses; something like President Regan did. He would personally address the American people; and was able to get the democratic controlled congress to do the right thing. If you use a press conferences; do not take questions; let them smolder. Publicly announce that Loretta Lynch should be investigated for, obstructing justice, by calling the investigation of Hillary and "matter" and that she deliberately closed her eyes to Hillary's obvious criminal behavior as secretary of state; outlined and highlighted by Comey. Make a public announcement that Comey has - obstructed justice - by NOT bringing charges against Hillary's obvious unlawful behavior. A secret private server used by the Secretary of State, obviously proves "intent". And accuse Loretta Lynch and Comey with - obstructing justice - by allowing the lap tops and phones used by Hillary and her staff to be destroyed. Thereby -covering up evidence - of obvious unlawful behavior, outlined by Comey. Call on the special prosecutor to resign, if he has any integrity. Because, of the obvious conflict of interest of, being friends with Comey. And, especially since, Comey closed his eyes to the unlawful actions of Hillary. Don't expect the emasculated republican leaders, to show much courage. They are more concerned with kissing ass on the left and kicking teeth on the right. Attack, Comey and Robert Mueller. Accuse them with being, America's - Chief Swamp Masters, witch hunt experts, twister of truth and defenders of lies. Did they both vote for Hillary? If so, is that a conflict of interest? Unapologetically, Attack, and expose the Truth, relating to the obstruction of justice and unlawful acts, of Comey, Loretta Lynch, Hillary, Obama and his officials.
