- (1) are not available within a reasonable period of time;
- (2) fail to meet the performance standards set forth in the applicable specifications; or
- (3) are only available at a price that exceeds by more than seven and one-half percent the price of alternative items.

FF. Section 48-46-40 of the 1976 Code is amended to read:

"Section 48-46-40. (A)(1) The board department shall approve disposal rates for low-level radioactive waste disposed at any regional disposal facility located within the State. The approval of disposal rates pursuant to this chapter is neither a regulation nor the promulgation of a regulation as those terms are specially used in Title 1, Chapter 23.

(2) The board department shall adopt a maximum uniform rate schedule for regional generators containing disposal rates that include the administrative surcharges specified in Section 48-46-60(B) and surcharges for the extended custody and maintenance of the facility pursuant to Section 13-7-30(4) and that do not exceed the approximate disposal rates, excluding any access fees and including a specification of the methodology for calculating fees for large components, generally applicable to regional generators on September 7, 1999. Any disposal rates contained in a valid written agreement that were applicable to a regional generator on September 7, 1999, that differ from rates in the maximum uniform rate schedule will continue to be honored through the term of such agreement. The maximum uniform rate schedule approved under this section becomes effective immediately upon South Carolina's membership in the Atlantic Compact. The maximum uniform rate schedule shall be the rate schedule applicable to regional waste whenever it is not superseded by an adjusted rate approved by the board department pursuant to paragraph (3) of this subsection or by special disposal rates approved pursuant to paragraphs (5) or (6)(e) of this subsection.

(3) The board department may at any time of its own initiative, at the request of a site operator, or at the request of the compact commission, adjust the disposal rate or the relative proportions of the individual components that constitute the overall rate schedule. Except as adjusted for inflation in subsection (4), rates adjusted in accordance with this section, that include the administrative surcharges specified in Section 48-46-60(B) and surcharges for the extended custody and maintenance of the facility pursuant to Section 13-7-30(4), may not exceed initial disposal rates set by the board department pursuant to subsection (2).

(4) In March of each year the board department shall adjust the rate schedule based on the most recent changes in the most nearly applicable Producer Price Index published by the Bureau of Labor Statistics as chosen by the board department or a successor index.

(5) In consultation with the site operator, the board department or its designee, on a case-by-case basis, may approve special disposal rates for regional waste that differ from the disposal rate schedule for regional generators set by the board department pursuant to subsections (2) and (3). Requests by the site operator for such approval shall be in writing to the board department. In approving such special rates, the board department or its designee, shall consider available disposal capacity, demand for disposal capacity, the characteristics of the waste, the potential for generating revenue for the State, or other relevant factors; provided, however, that the board department shall not approve any special rate for an entity owned by or affiliated with the site operator. Special disposal rates approved by the board department under this subsection shall be in writing and shall be kept confidential as proprietary business information for one year from the date when the bid or the request for proposal containing the special rate is accepted by the regional generator; provided, however, that such special rates when accepted by a regional generator shall be disclosed to the compact commission and to all other regional generators, which shall, to the extent permitted by applicable law, keep them confidential as proprietary business information for one year from the date when the bid or request for proposal containing this

special rate is accepted by the regional generator. Within one business day of a special disposal rate's acceptance, the site operator shall notify the board department, the compact commission, and the regional generators of each special rate that has been accepted by a regional generator, and the board department, the compact commission, and regional generators may communicate with each other about such special rates. If any special rate approved by the board department for a regional generator is lower than a disposal rate approved by the board department for regional generators pursuant to subsections (2) and (3) for waste that is generally similar in characteristics and volume, the disposal rate for all regional generators shall be revised to equal the special rate for the regional generator. Regional generators may enter into contracts for waste disposal at such special rates and on comparable terms for a period of not less than six months. An officer of the site operator shall certify in writing to the board department and the compact commission each month that no regional generator's disposal rate exceeds any other regional generator's special rate for waste that is generally similar in characteristics and volume, and such certification shall be subject to periodic audit by the board department and the compact commission.

(6)(a) To the extent authorized by the compact commission, the board department on behalf of the State of South Carolina may enter into agreements with any person in the United States or its territories or any interstate compact, state, U.S. territory, or U.S. Department of Defense military installation abroad for the importation of waste into the region for purposes of disposal at a regional disposal facility within South Carolina. No waste from outside the Atlantic Compact region may be disposed at a regional disposal facility within South Carolina, except to the extent that the board department is authorized by the compact commission to enter into agreements for importation of waste.

The board department shall authorize the importation of nonregional waste into the region for purposes of disposal at the regional disposal facility in South Carolina so long as nonregional waste would not result in the facility accepting more than the following total volumes of all waste:

- (i) 160,000 cubic feet in fiscal year 2001;
- (ii) 80,000 cubic feet in fiscal year 2002;
- (iii) 70,000 cubic feet in fiscal year 2003;
- (iv) 60,000 cubic feet in fiscal year 2004;
- (v) 50,000 cubic feet in fiscal year 2005;
- (vi) 45,000 cubic feet in fiscal year 2006;
- (vii) 40,000 cubic feet in fiscal year 2007;
- (viii) 35,000 cubic feet in fiscal year 2008.

After fiscal year 2008, the board department shall not authorize the importation of nonregional waste for purposes of disposal.

(b) The board department may approve disposal rates applicable to nonregional generators. In approving disposal rates applicable to nonregional generators, the board department may consider available disposal capacity, demand for disposal capacity, the characteristics of the waste, the potential for generating revenue for the State, and other relevant factors.

(c) Absent action by the board department under subsection (b) above to establish disposal rates for nonregional generators, rates applicable to these generators must be equal to those contained in the maximum uniform rate schedule approved by the board department pursuant to paragraph (2) or (3) of this subsection for regional generators unless these rates are superseded by special disposal rates approved by the board

department pursuant to paragraph (6)(e) of this subsection.

(d) Regional generators shall not pay disposal rates that are higher than disposal rates for nonregional generators in any fiscal quarter.

(e) In consultation with the site operator, the board department or its designee, on a case-by-case basis, may approve special disposal rates for nonregional waste that differ from the disposal rate schedule for nonregional generators set by the board department. Requests by the site operator for such approval shall be in writing to the board department. In approving such special rates, the board department or its designee shall consider available disposal capacity, demand for disposal capacity, the characteristics of the waste, the potential for generating revenue for the State, and other relevant factors; provided, however, that the board department shall not approve any special rate for an entity owned by or affiliated with the site operator. Special disposal rates approved by the board department under this subsection shall be in writing and shall be kept confidential as proprietary business information for one year from the date when the bid or request for proposal containing the special rate is accepted by the nonregional generator; provided, however, that such special rates when accepted by a nonregional generator shall be disclosed to the compact commission and to all regional generators, which shall, to the extent permitted by applicable law, keep them confidential as proprietary business information for one year from the date when the bid or request for proposal containing the special rate is accepted by the nonregional generator. Within one business day of a special disposal rate's acceptance, the site operator shall notify the board department, the compact commission, and the regional generators in writing of each special rate that has been accepted by a nonregional generator, and the board department, the compact commission, and regional generators may communicate with each other about such special rates. If any special rate approved by the board department for a nonregional generator is lower than a disposal rate approved by the board department for regional generators for waste that is generally similar in characteristics and volume, the disposal rate for all regional generators shall be revised to equal the special rate for the nonregional generator. Regional generators may enter into contracts for waste disposal at such special rate and on comparable terms for a period of not less than six months. An officer of the site operator shall certify in writing to the board department and the compact commission each month that no regional generator disposal rate exceeds any nonregional generator's special rate for waste that is generally similar in characteristics and volume, and such certification shall be subject to periodic audit by the board department and the compact commission.

(B)(1) Effective upon the implementation of initial disposal rates by the board department under Section 48-46-40(A), the PSC is authorized and directed to identify allowable costs for operating a regional low-level radioactive waste disposal facility in South Carolina.

(2) In identifying the allowable costs for operating a regional disposal facility, the PSC shall:

- (a) prescribe a system of accounts, using generally accepted accounting principles, for disposal site operators, using as a starting point the existing system used by site operators;
- (b) assess penalties against disposal site operators if the PSC determines that they have failed to comply with regulations pursuant to this section; and
- (c) require periodic reports from site operators that provide information and data to the PSC and parties to these proceedings. The Office of Regulatory Staff shall obtain and audit the books and records of the site operators associated with disposal operations as determined applicable by the PSC.

(3) Allowable costs include the costs of those activities necessary for:

- (a) the receipt of waste;
- (b) the construction of disposal trenches, vaults, and overpacks;
- (c) construction and maintenance of necessary physical facilities;

- (d) the purchase or amortization of necessary equipment;
- (e) purchase of supplies that are consumed in support of waste disposal activities;
- (f) accounting and billing for waste disposal;
- (g) creating and maintaining records related to disposed waste;
- (h) the administrative costs directly associated with disposal operations including, but not limited to, salaries, wages, and employee benefits;
- (i) site surveillance and maintenance required by the State of South Carolina, other than site surveillance and maintenance costs covered by the balance of funds in the decommissioning trust fund or the extended care maintenance fund;
- (j) compliance with the license, lease, and regulatory requirements of all jurisdictional agencies;
- (k) administrative costs associated with collecting the surcharges provided for in subsections (B) and (C) of Section 48-46-60;
- (l) taxes other than income taxes;
- (m) licensing and permitting fees; and
- (n) any other costs directly associated with disposal operations determined by the PSC to be allowable.

Allowable costs do not include the costs of activities associated with lobbying and public relations, clean-up and remediation activities caused by errors or accidents in violation of laws, regulations, or violations of the facility operating license or permits, activities of the site operator not directly in support of waste disposal, and other costs determined by the PSC to be unallowable.

(4) Within ninety days following the end of a fiscal year, a site operator may file an application with the PSC to adjust the level of an allowable cost under subsection (3), or to allow a cost not previously designated an allowable cost. A copy of the application must be provided to the Office of Regulatory Staff. The PSC shall process such application in accordance with its procedures. If such application is approved by the PSC, the PSC shall authorize the site operator to adjust allowable costs for the current fiscal year so as to compensate the site operator for revenues lost during the previous fiscal year.

(5) A private operator of a regional disposal facility in South Carolina is authorized to charge an operating margin of twenty-nine percent. The operating margin for a given period must be determined by multiplying twenty-nine percent by the total amount of allowable costs as determined in this subsection, excluding allowable costs for taxes and licensing and permitting fees paid to governmental entities.

(6) The site operator shall prepare and file with the PSC a Least Cost Operating Plan. The plan must be filed within forty-five days of enactment of this chapter and must be revised annually. The plan shall include information concerning anticipated operations over the next ten years and shall evaluate all options for future staffing and operation of the site to ensure least cost operation, including information related to the possible interim suspension of operations in accordance with subsection (B)(7). A copy of the plan must be provided to the Office of Regulatory Staff.

(7)(a) If the board department, upon the advice of the compact commission or the site operator, concludes based on information provided to the board department, that the volume of waste to be disposed during a forthcoming period of time does not appear sufficient to generate receipts that will be adequate to reimburse the site operator for its costs of operating the facility and its operating margin, then the board department shall direct the site operator to propose to the compact commission plans including, but not necessarily limited to, a proposal for discontinuing acceptance of waste until such time as there is sufficient waste to cover the site

operator's operating costs and operating margin. Any proposal to suspend operations must detail plans of the site operator to minimize its costs during the suspension of operations. Any such proposal to suspend operations must be approved by the Department of Health and Environmental Control with respect to safety and environmental protection.

(b) Allowable costs applicable to any period of suspended operations must be approved by the PSC according to procedures similar to those provided herein for allowable operating costs. During any such suspension of operations, the site operator must be reimbursed by the board department from the extended care maintenance fund for its allowable costs and its operating margin. During the suspension funding to reimburse the board department, the PSC, and the State Treasurer under Section 48-46-60(B) and funding of the compact commission under Section 48-46-60(C) must also be allocated from the extended care maintenance fund as approved by the board department based on revised budgets submitted by the PSC, State Treasurer, and the compact commission.

(c) Notwithstanding any disbursements from the extended care maintenance fund in accordance with any provision of this act, the board department shall continue to ensure, in accordance with Section 13-7-30, that the fund remains adequate to defray the costs for future maintenance costs or custodial and maintenance obligations of the site and other obligations imposed on the fund by this chapter.

(d) The PSC may promulgate regulations and policies necessary to execute the provisions of this section.

(8) The PSC may use any standard, formula, method, or theory of valuation reasonably calculated to arrive at the objective of identifying allowable costs associated with waste disposal. The PSC may consider standards, precedents, findings, and decisions in other jurisdictions that regulate allowable costs for radioactive waste disposal.

(9) In all proceedings held pursuant to this section, the board department shall participate as a party representing the interests of the State of South Carolina, and the compact commission may participate as a party representing the interests of the compact states. The Executive Director of the Office of Regulatory Staff and the Attorney General of the State of South Carolina shall be parties to any such proceeding. Representatives from the Department of Health and Environmental Control shall participate in proceedings where necessary to determine or define the activities that a site operator must conduct in order to comply with the regulations and license conditions imposed by the department. Other parties may participate in the PSC's proceedings upon satisfaction of standing requirements and compliance with the PSC's procedures. Any site operator submitting records and information to the PSC may request that the PSC treat such records and information as confidential and not subject to disclosure in accordance with the PSC's procedures.

(10) In all respects in which the PSC has power and authority under this chapter, it shall conduct its proceedings under the South Carolina Administrative Procedures Act and the PSC's rules and regulations. The PSC is authorized to compel attendance and testimony of a site operator's directors, officers, agents, or employees.

(11) At any time the compact commission, the board department, or any generator subject to payment of rates set pursuant to this chapter may file a petition against a site operator alleging that allowable costs identified pursuant to this chapter are not in conformity with the directives of this chapter or the directives of the PSC or that the site operator is otherwise not acting in conformity with the requirements of this chapter or directives of the PSC. Upon filing of the petition, the PSC shall cause a copy of the petition to be served upon the site operator. The petitioning party has the burden of proving that allowable costs or the actions of the site operator do not conform. The hearing shall conform to the rules of practice and procedure of the PSC for other cases.

(12) The PSC shall encourage alternate forms of dispute resolution including, but not limited to, mediation or arbitration to resolve disputes between a site operator and any other person regarding matters covered by this chapter.

(C) The operator of a regional disposal facility shall submit to the South Carolina Department of Revenue, the PSC, the Office of Regulatory Staff, and the board department within thirty days following the end of each quarter a report detailing actual revenues received in the previous fiscal quarter and allowable costs incurred for operation of the disposal facility.

(D)(1) Within 30 thirty days following the end of the fiscal year the operator of a regional disposal facility shall submit a payment made payable to the South Carolina Department of Revenue in an amount that is equal to the total revenues received for waste disposed in that fiscal year (with interest accrued on cash flows in accordance with instructions from the State Treasurer) minus allowable costs, operating margin, and any payments already made from such revenues pursuant to Section 48-46-60(B) and (C) for reimbursement of administrative costs to state agencies and the compact commission. The Department of Revenue shall deposit the payment with the State Treasurer.

(2) If in any fiscal year total revenues do not cover allowable costs plus the operating margin, the board department must reimburse the site operator its allowable costs and operating margin from the extended care maintenance fund within thirty days after the end of the fiscal year. The board department shall as soon as practicable authorize a surcharge on waste disposed in an amount that will fully compensate the fund for the reimbursement to the site operator. In the event that total revenues for a fiscal year do not cover allowable costs plus the operating margin, or quarterly reports submitted pursuant to subsection (C) indicate that such annual revenue may be insufficient, the board department shall consult with the compact commission and the site operator as early as practicable on whether the provisions of Section 48-46-40(B)(7) pertaining to suspension of operations during periods of insufficient revenues should be invoked.

(E) Revenues received pursuant to item (1) of subsection (D) must be allocated as follows:

(1) The South Carolina State Treasurer shall distribute the first two million dollars received for waste disposed during a fiscal year to the County Treasurer of Barnwell County for distribution to each of the parties to and beneficiaries of the order of the United States District Court in C.A. No. 1:90-2912-6 on the same schedule of allocation as is established within that order for the distribution of 'payments in lieu of taxes' paid by the United States Department of Energy.

(2) All revenues in excess of two million dollars received from waste disposed during the previous fiscal year must be deposited in a fund called the 'Nuclear Waste Disposal Receipts Distribution Fund'. Any South Carolina waste generator whose disposal fees contributed to the fund during the previous fiscal year may submit a request for a rebate of 33.33 percent of the funds paid by the generator during the previous fiscal year for disposal of waste at a regional disposal facility. These requests along with invoices or other supporting material must be submitted in writing to the State Treasurer within fifteen days of the end of the fiscal year. For this purpose disposal fees paid by the generator must exclude any fees paid pursuant to Section 48-46-60(C) for compact administration and fees paid pursuant to Section 48-46-60(B) for reimbursement of the PSC, the Office of Regulatory Staff, the State Treasurer, and the board department for administrative expenses under this chapter. Upon validation of the request and supporting documentation by the State Treasurer, the State Treasurer shall issue a rebate of the applicable funds to qualified waste generators within sixty days of the receipt of the request. If funds in the Nuclear Waste Disposal Receipts Distribution Fund are insufficient to provide a rebate of 33.33 percent to each generator, then each generator's rebate must be reduced in proportion to the amount of funds in the account for the applicable fiscal year.

(3) All funds deposited in the Nuclear Waste Disposal Receipts Distribution Fund for waste disposed for each fiscal year, less the amount needed to provide generators rebates pursuant to item (2), shall be deposited by the State Treasurer in the 'Children's Education Endowment Fund'. Thirty percent of these monies must be allocated to Higher Education Scholarship Grants and used as provided in Section 59-143-30, and seventy percent of these monies must be allocated to Public School Facility Assistance and used as provided in Chapter 144, of Title 59.

(F) Effective beginning fiscal year 2001-2002, there is appropriated annually from the general fund of the

State to the Higher Education Scholarship Grants share of the Children's Education Endowment whatever amount is necessary to credit to the Higher Education Scholarship Grants share an amount not less than the amount credited to that portion of the endowment in fiscal year 1999-2000. Revenues credited to the endowment pursuant to this subsection, for purposes of Section 59-143-10, are deemed to be received by the endowment pursuant to the former provisions of Section 48-48-140(C)."

GG. Section 48-46-50 of the 1976 Code is amended to read:

"Section 48-46-50. (A) The Governor shall appoint two commissioners to the Atlantic Compact Commission and may appoint up to two alternate commissioners. These alternate commissioners may participate in meetings of the compact commission in lieu of and upon the request of a South Carolina commissioner. Technical representatives from the Department of Health and Environmental Control, the board department, the PSC, and other state agencies may participate in relevant portions of meetings of the compact commission upon the request of a commissioner, alternate commissioner, or staff of the compact commission, or as called for in the compact commission bylaws.

(B) South Carolina commissioners or alternate commissioners to the compact commission may not vote affirmatively on any motion to admit new member states to the compact unless that state volunteers to host a regional disposal facility.

(C) Compact commissioners or alternate commissioners to the Atlantic Compact Commission may not vote to approve a regional management plan or any other plan or policy that allows for acceptance at the Barnwell regional disposal facility of more than a total of 800,000 cubic feet of waste from Connecticut and New Jersey.

(D) South Carolina's commissioners or alternate commissioners to the compact commission shall cast any applicable votes on the compact commission in a manner that authorizes the importation of waste into the region for purposes of disposal at a regional disposal facility in South Carolina so long as importation would not result in the facility accepting more than the following total volumes of all waste:

- (1) 160,000 cubic feet in fiscal year 2001;
- (2) 80,000 cubic feet in fiscal year 2002;
- (3) 70,000 cubic feet in fiscal year 2003;
- (4) 60,000 cubic feet in fiscal year 2004;
- (5) 50,000 cubic feet in fiscal year 2005;
- (6) 45,000 cubic feet in fiscal year 2006;
- (7) 40,000 cubic feet in fiscal year 2007;
- (8) 35,000 cubic feet in fiscal year 2008.

South Carolina's commissioners or alternate commissioners shall not vote to approve the importation of waste into the region for purposes of disposal in any fiscal year after 2008."

HH. Section 48-46-60 of the 1976 Code is amended to read:

"Section 48-46-60. (A) The Governor and the board department are authorized to take such actions as are necessary to join the Atlantic Compact including, but not limited to, petitioning the Compact Commission for membership and participating in any and all rulemaking processes. South Carolina's membership in the Atlantic Compact pursuant to this chapter is effective July 1, 2000, if by that date the Governor certifies to the General Assembly that the Compact Commission has taken each of the actions specified below. If the Compact

Commission by July 1, 2000, has not taken each of the actions specified below, then South Carolina's membership shall become effective as soon thereafter as the Governor certifies that the Atlantic Compact Commission has taken these actions:

- (1) adopted a binding regulation or policy in accordance with Article VII(e) of the compact establishing conditions for admission of a party state that are consistent with this act and ordered that South Carolina be declared eligible to be a party state consistent with those conditions;
- (2) adopted a binding regulation or policy in accordance with Article IV(i)(11) of the Atlantic Compact authorizing a host state to enter into agreements on behalf of the compact and consistent with criteria established by the compact commission and consistent with the provisions of Section 48-46-40(A)(6)(a) and Section 48-46-50(D) with any person for the importation of waste into the region for purposes of disposal, to the extent that these agreements do not preclude the disposal facility from accepting all regional waste that can reasonably be projected to require disposal at the regional disposal facility consistent with subitem (5)(b) of this section;
- (3) adopted a binding regulation or policy in accordance with Article IV(i)(12) of the Atlantic Compact authorizing each regional generator, at the generator's discretion, to ship waste to disposal facilities located outside the Atlantic Compact region;
- (4) authorized South Carolina to proceed with plans to establish disposal rates for low-level radioactive waste disposal in a manner consistent with the procedures described in this chapter;
- (5) adopted a binding regulation, policy, or order officially designating South Carolina as a volunteer host state for the region's disposal facility, contingent upon South Carolina's membership in the compact, in accordance with Article V.b.1. of the Atlantic Compact, thereby authorizing the following compensation and incentives to South Carolina:
 - (a) agreement, as evidenced in a policy, regulation, or order that the compact commission will issue a payment of twelve million dollars to the State of South Carolina. Before issuing the twelve million-dollar payment, the compact commission will deduct and retain from this amount seventy thousand dollars, which will be credited as full payment of South Carolina's membership dues in the Atlantic Compact. The remainder of the twelve million-dollar payment must be credited to an account in the State Treasurer's office, separate and distinct from the fund, styled 'Barnwell Economic Development Fund'. This fund, and earnings on this fund which must be credited to the fund, may only be expended for purposes of economic development in the Barnwell County area including, but not limited to, projects of the Barnwell County Economic Development Corporation and projects of the Tri-County alliance which includes Barnwell, Bamberg, and Allendale Counties and projects in the Williston area of Aiken County. Economic development includes, but is not limited to, industrial recruitment, infrastructure construction, improvement, and expansion, and public facilities construction, improvement, and expansion. These funds must be spent according to guidelines established by the Barnwell County governing body and upon approval of the board department. Expenditures must be authorized by the Barnwell County governing body and with the approval of the board department. Upon approval of the Barnwell County governing body and the board department, the State Treasurer shall submit the approved funds to the Barnwell County Treasurer for disbursement pursuant to the authorization;
 - (b) adopted a binding regulation, policy, or order consistent with the regional management plan developed pursuant to Article V(a) of the Atlantic Compact, limiting Connecticut and New Jersey to the use of not more than 800,000 cubic feet of disposal capacity at the regional disposal facility located in Barnwell County, South Carolina, and also ensuring that up to 800,000 cubic feet of disposal capacity remains available for use by Connecticut and New Jersey unless this estimate of need is later revised downward by unanimous consent of the compact commission;
 - (c) agreement, as evidenced in a policy or regulation, that the compact commission headquarters and office

will be relocated to South Carolina within six months of South Carolina's membership; and

(d) agreement, as evidenced in a policy or regulation, that the compact commission will, to the extent practicable, hold a majority of its meetings in the host state for the regional disposal facility.

(B) The board department, the State Treasurer, and the PSC shall provide the required staff and may add additional permanent or temporary staff or contract for services, as well as provide for operating expenses, if necessary, to administer new responsibilities assigned under this chapter. In accordance with Article V.f.2. of the Atlantic Compact the compensation, costs, and expenses incurred incident to administering these responsibilities may be paid through a surcharge on waste disposed at regional disposal facilities within the State. To cover these costs the board department shall impose a surcharge per unit of waste received at any regional disposal facility located within the State. A site operator shall collect and remit these fees to the board department in accordance with the board's department's directions. All such surcharges shall be included within the disposal rates set by the board department pursuant to Section 48-46-40.

(C) In accordance with Article V.f.3. of the Atlantic Compact, the compact commission shall advise the board department at least annually, but more frequently if the compact commission deems appropriate, of the compact commission's costs and expenses. To cover these costs the board department shall impose a surcharge per unit of waste received at any regional disposal facility located within the State as determined in Section 48-46-40. A site operator shall collect and remit these fees to the board department in accordance with the board department's directions, and the board department shall remit those fees to the compact commission."

(D) The board shall meet at least quarterly and more frequently upon the call of the division director to review and coordinate the activities of the local review boards and make recommendations to the Governor and the General Assembly with regard to foster care policies, procedures, and deficiencies of public and private

agencies which arrange for foster care of children as determined by the review of cases provided for in Section 63-11-720(A)(1) and (2). These recommendations must be submitted to the Governor and included in an annual report, filed with the General Assembly, of the activities of the state office and local review boards.

(E) The board, upon recommendation of the division director, shall promulgate regulations to carry out the provisions of this article. These regulations shall provide for and must be limited to procedures for: reviewing reports and other necessary information at state, county, and private agencies and facilities; scheduling of reviews and notification of interested parties; conducting local review board and board of directors' meetings; disseminating local review board recommendations, including reporting to the appropriate family court judges the status of judicially approved treatment plans; participating and intervening in family court proceedings; and developing policies for summary review of children privately placed in privately-owned facilities or group homes.

(F) The Governor may employ a division director to serve at the Governor's pleasure who may be paid an annual salary to be determined by the Governor. The director may be removed pursuant to Section 1-3-240. The division director shall employ staff as is necessary to carry out this article, and the staff must be compensated in an amount and in a manner as may be determined by the Governor.

(G) This article may not be construed to provide for subpoena authority."

2. Section 63-11-730(A) of the 1976 Code is amended to read:

"(A) No person may be employed by the Division for Review of the Foster Care of Children, Office of the Governor Department of Administration, or may serve on the state or a local foster care review board if the person:

There is created the Children's Case Resolution System, to be administratively a part of the Department of Administration and referred to in this article as the System, which is a process of reviewing cases on behalf of children for whom the appropriate public agencies collectively have not provided the necessary services. The System must be housed in and staffed by the Office of the Governor."

2. Section 63-11-1140(5), (8), and (9) of the 1976 Code are amended to read:

"(5) when unanimous consent is not obtained as required in item (4), a panel must be convened composed of the following persons:

(a) one public agency board member and one agency head appointed by the Governor. Recommendations for appointments may be submitted by the Human Services Coordinating Council. No member may be appointed who represents any agency involved in the resolution of the case;

(b) one legislator appointed by the Governor; and

(c) two members appointed by the Governor, drawn from a list of qualified individuals not employed by a child-serving public agency, established in advance by the System, who have knowledge of public services for children in South Carolina.

The chairman must be appointed by the Governor from members appointed as provided in subitem (c) of this item. A decision is made by a majority of the panel members present and voting, but in no case may a decision be rendered by less than three members. The panel shall review a case at the earliest possible date after sufficient staff review and evaluation pursuant to items (3) and (4) and shall make a decision by the next scheduled panel meeting. When private services are necessary, financial responsibility must be apportioned among the appropriate public agencies based on the reasons for the private services. Agencies designated by the panel shall carry out the decisions of the panel, but the decisions may not substantially affect the funds appropriated for the designated agency to such a degree that the intent of the General Assembly is changed. Substantial impact of the decisions must be defined by regulations promulgated by the State Budget and Control Board Department of Administration. When the panel identifies similar cases that illustrate a break in the delivery of service to children, either because of restrictions by law or substantial lack of funding, the panel shall report the situation to the General Assembly and subsequently may not accept any similar cases for decision until the General Assembly takes appropriate action, however, the System may continue to perform the functions provided in items (3) and (4).

Each member of the panel is entitled to subsistence, per diem, and mileage authorized for members of state boards, committees, and commissions. The respective agency is responsible for the compensation of the members appointed in subitems (a) and (b) of this item, and the System is responsible for the compensation of the members appointed in subitem (c) of this item;

(8) submit an annual report on the activities of the System to the Governor, Director of the Department of Administration, the General Assembly, and agencies designated by the System as relevant to the cases; and

(9) compile and transmit additional reports on the activities of the System, and recommendations for service delivery improvements, as necessary, to the Governor and the Joint Citizens and Legislative Committee on Children."

To achieve this objective, the Continuum of Care for Emotionally Disturbed Children Division is established as a division in the office of the Governor Department of Administration. This article supplements and does not supplant existing services provided to this population.
"

3. Section 63-11-1340 of the 1976 Code, as added by Act 361 of 2008, is amended to read:

There is established the Interagency System for Caring for Emotionally Disturbed Children, an integrated system of care to be developed by the Continuum of Care for Emotionally Disturbed Children of the Governor's Office in the Department of Administration, the Department of Disabilities and Special Needs, the State Health and Human Services Finance Commission, the Department of Mental Health, and the Department of Social Services to be implemented by November 1, 1994. The goal of the system is to implement South Carolina's Families First Policy and to support children in a manner that enables them to function in a community setting. The system shall provide assessment and evaluation procedures to insure a proper service plan and placement for each child. This system must have as a key component the clear identification of the agency accountable for monitoring on a regular basis each child's care plan and procedures to evaluate and certify the programs offered by providers."

Part VI

Revenue and Fiscal Affairs Office and
Other Transfer Provisions

Subpart 1

SECTION 8. Chapter 9, Title 11 of the 1976 Code is amended by adding:

"Article 11

Revenue and Fiscal Affairs Office

Section 11-9-1110. (A) Effective July 1, 2013, there is established the Revenue and Fiscal Affairs Office to be governed by the three appointed members of the Board of Economic Advisors pursuant to Section 11-9-820. A deficit only may be recognized by an affirmative vote of each branch of the General Assembly.

Section 2-47-10. The General Assembly finds that a need exists for careful planning of permanent improvements and of the utilization of state general obligation and institutional bond authority in order to ensure the continued favorable bond credit rating our State has historically enjoyed. It further finds that the responsibility for proper management of these matters is properly placed upon the General Assembly by our State Constitution legislative and executive branches of government. It is the purpose of this resolution act to further ensure the proper legislative and executive response in the fulfillment of this responsibility.

Section 2-47-15. Where the amount of a permanent improvement project is five hundred thousand dollars or less and the applicable enabling statute or the general law relating to the project or the issuance of bonds or funding relating to the project requires both the review of the Joint Bond Review Committee and the approval by the former Budget and Control Board, the responsibility of the former Budget and Control Board, in this regard, is devolved upon the Director of the Department of Administration (department). Where the amount of the project or funding exceeds five hundred thousand dollars, the responsibility of the former Budget and Control Board, in this regard, is devolved upon the Bond Review Authority with no prior approval required on the part of the department.

Section 2-47-20. There is hereby created a six member joint committee of the General Assembly to be known as the Joint Bond Review Committee to study and monitor policies and procedures relating to the approval of permanent improvement projects and to the issuance of state general obligation and institutional bonds; to evaluate the effect of current and past policies on the bond credit rating of the State; and provide advisory assistance in the establishment of future capital management policies. Three members shall be appointed from the Senate Finance Committee by the chairman thereof and three from the Ways and Means Committee of the House of Representatives by the chairman of that committee corresponding corresponding to the terms for which they are elected to the General Assembly. The committee shall elect officers of the committee, but any person so elected may succeed himself if elected to do so.

The expenses of the committee shall be paid from approved accounts of both houses. The Legislative Council and all other legislative staff organizations shall provide such assistance as the joint committee may request.

Section 2-47-25. In addition to the members provided for by Section 2-47-20, two additional members shall be appointed by the Chairman of the Ways and Means Committee of the House of Representatives from the membership of that body. Members shall serve the same terms as the members of the committee provided for in Section 2-47-20.

Section 2-47-30. The committee is specifically charged with, but not limited to, the following responsibilities:

- (1) To review, prior to approval by the Budget and Control Board authority or the director of the department, as appropriate, the establishment of any permanent improvement project and the source of funds for any such project not previously authorized specifically by the General Assembly.
- (2) To study the amount and nature of existing general obligation and institutional bond obligations and the capability of the State to fulfill such obligations based on current and projected revenues.
- (3) To recommend priorities of future bond issuance based on the social and economic needs of the State.
- (4) To recommend prudent limitations of bond obligations related to present and future revenue estimates.
- (5) To consult with independent bond counsel and other nonlegislative authorities on such matters and with fiscal officials of other states to gain in-depth knowledge of capital management and assist in the formulation of short- and long-term recommendations for the General Assembly.

(6) To carry out all of the above assigned responsibilities in consultation and cooperation with the executive branch of government and the Budget and Control Board authority and the department.

(7) To report its findings and recommendations to the General Assembly annually or more frequently if deemed advisable by the committee.

Section 2-47-35. No project authorized in whole or in part for capital improvement bond funding under the provisions of Act 1377 of 1968, as amended, may be implemented until funds can be made available and until the Joint Bond Review Committee, in consultation with the Budget and Control Board authority or the department, establishes priorities for the funding of the projects within their area of responsibility. The Joint Bond Review Committee shall report its priorities to the members of the General Assembly within thirty days of the establishment of the funding priorities.

Section 2-47-40. (A) To assist the State Budget and Control Board (the Board) authority, the department, and the Joint Bond Review Committee (the Committee) in carrying out their respective responsibilities, any agency or institution requesting or receiving funds from any source for use in the financing of any permanent improvement project, as a minimum, shall provide to the Board authority or department, whichever is responsible for approving the project, in such form and at such times as the Board authority or department, after review by the committee, may prescribe:

- (g)(7) a proposed plan of financing the project, specifically identifying funds proposed from sources other than capital improvement bond authorizations; and
- (h)(8) the specification of the priority of each project among those proposed.

(B) All institutions of higher learning shall submit permanent improvement project proposal and justification statements to the Board authority or department, whichever is responsible for approving the project, through the Commission on Higher Education which shall forward all such statements and all supporting documentation received to the Board authority or department together with its comments and recommendations. The recommendations of the Commission on Higher Education, among other things, shall include all of the permanent improvement projects requested by the several institutions listed in the order of priority deemed appropriate by the Commission on Higher Education without regard to the sources of funds proposed for the financing of the projects requested.

The Board authority or department shall forward a copy of each project proposal and justification statement and supporting documentation received together with the Board's authority's or department director's recommendations on such projects to the committee for its review and action. The recommendations of the Commission on Higher Education shall be included in the materials forwarded to the committee by the Board authority or department.

(C) No provision in this section or elsewhere in this chapter, shall be construed to limit in any manner the prerogatives of the committee and the General Assembly with regard to recommending or authorizing

permanent improvement projects and the funding such projects may require.

Section 2-47-50. (A) The board authority or department shall establish formally each permanent improvement project before actions of any sort which implement the project in any way may be undertaken and no expenditure of any funds for any services or for any other project purpose contracted for, delivered, or otherwise provided prior to the date of the formal action of the board authority or department to establish the project shall be approved. State agencies and institutions may advertise and interview for project architectural and engineering services for a pending project so long as the architectural and engineering contract is not awarded until after a state project number is assigned. After the committee has reviewed the form to be used to request the establishment of permanent improvement projects and has reviewed the time schedule for considering such requests as proposed by the board authority or director of the department, requests to establish permanent improvement projects shall be made in such form and at such times as the board authority or department may require.

(B) Any proposal to finance all or any part of any project using any funds not previously authorized specifically for the project by the General Assembly or using any funds not previously approved for the project by the board authority or director of the department and reviewed by the committee shall be referred to the committee for review prior to approval by the board authority or director of the department.

(C) Any proposed revision of the scope or of the budget of an established permanent improvement project deemed by the board authority or department to be substantial shall be referred to the committee for its review prior to any final action by the board authority or department. In making their determinations regarding changes in project scope, the board authority, department, and the committee shall utilize the permanent improvement project proposal and justification statements, together with any supporting documentation, considered at the time the project was authorized or established originally. Any proposal to increase the budget of a previously approved project using any funds not previously approved for the project by the board authority or director of the department and reviewed by the committee shall in all cases be deemed to be a substantial revision of a project budget which shall be referred to the committee for review. The committee shall be advised promptly of all actions taken by the board authority or director of the department which approve revisions in the scope of or the budget of any previously established permanent improvement project not deemed substantial by the board authority or director of the department.

(D) For purposes of this chapter, with regard to all institutions of higher learning, permanent improvement project is defined as:

However, an institution of higher learning that has been authorized or appropriated capital improvement bond funds, capital reserve funds or state appropriated funds, or state infrastructure bond funds by the General Assembly for capital improvements shall process a permanent improvement project, regardless of the amount.

(F) For purposes of establishing permanent improvement projects, Clemson University Public Service Activities (Clemson-PSA) and South Carolina State University Public Service Activities (SC State-PSA) are subject to the provisions of this chapter. Section 2-47-55. (A) All state agencies responsible for providing and maintaining physical facilities are required to submit a Comprehensive Permanent Improvement Plan (CPIP) to the Joint Bond Review Committee, and the Budget and Control Board authority, and the department. The CPIP must include all of the agency's permanent improvement projects anticipated and proposed over the next five years beginning with the fiscal year starting July 1 after submission. The purpose of the CPIP process is to provide the board authority, department, and the committee with an outline of each agency's permanent improvement activities for the next five years. Agencies must submit a CPIP to the committee, and the board authority, and the department on or before a date to be determined by the committee, and the board authority, and the department. The board authority, director of the department, and the committee must approve the CPIP after submission and may develop policies and procedures to implement and accomplish the purposes of this section.

(B) The State shall define a permanent improvement only in terms of capital improvements, as defined by generally accepted accounting principles, for reporting purposes to the State.

Section 2-47-56. Each state agency and institution may accept gifts-in-kind for architectural and engineering services and construction of a value less than two hundred fifty thousand dollars with the approval of the Commission of Higher Education or its designated staff, the director of the Division of General Services department, and the Joint Bond Review Committee or its designated staff. No other approvals or procedural requirements, including the provisions of Section 11-35-10, may be imposed on the acceptance of such gifts.

Section 2-47-60. The Joint Bond Review Committee is hereby authorized and directed to regulate the starting date of the various projects approved for funding through the issuance of state highway bonds so as to ensure that the sources of revenue for debt service on such bonds shall be sufficient during the current fiscal year.

Section 2-47-70. (A) To ensure the integrity and the effectiveness of the procurement process, the Joint Bond Review Committee shall receive a monthly report from the Department of Administration and the Procurement Oversight Board identifying each contract newly executed, against which the appropriate agency expects that at least five million dollars will be expended over the life of the agreement, inclusive of any available extensions or renewals. The monthly reports must also provide notice of any renewals or extensions approved for such contracts during the relevant period.

(B) Each governmental body, as defined in Section 11-35-310, shall, by the fifteenth day of each month, furnish the department and the board with records they shall require in order to satisfy the reporting requirements established in this section. The monthly reports must provide information on contracts executed, extended, or renewed during the period concluding one month prior to the date on which the report is transmitted to the Joint Bond Review Committee.

(C) The Joint Bond Review Committee may also, when deemed necessary, refer matters to the Legislative Audit Council or other appropriate investigative or prosecutorial entities for further review. Whenever the Joint
