Subject: DOL Change over

Kim and Dottie,

Dottie mentioned that they were trying to get everyone converted to the new hourly rate this week for pay periods. We had the December 1st date in our heads, and without constant HR support, had not backed up the pay period. Could the Governor's office and the Mansion staff convert the 28th? We need to train and get the letters out. More importantly, the Governor and Michael will be out of town most of this week, making it difficult for staff members to ask questions. If this would be possible it would be wonderful, and we could start training this week and have everyone ready to go November 28th after Thanksgiving.

Once you have a chance to see if this is possible or if there is a better alternative, please give me a call anytime Tuesday as I am sure this needs to be discussed. I apologize for putting a wrinkle in the plan and with the mid-pay period.

Richele
