Subject: Delay in LIFE Scholarship Money - BJU Financial Aid

We have been notified by the SC Commission on Higher Education that the expected LIFE Scholarship money will not be sent to eligible schools until late October. Funding has not yet been received from the State Legislature by the CHE.

Because your expected money will not be posted to your account until late October, your anticipated credit amount (if any) will not be available to you until that time. However, you may request an advance of \$300, if needed.

We will notify you as soon as the money is received and posted to your account.
