Greenville, South Carolina 29615

The Honorable Nikki R. Haley

Office of the Governor

1205 Pendleton Street

Columbia, South Carolina 29201

Dear Governor Haley,

My name is Madison Lindley and I currently live in Greenville, South Carolina. As beautiful as Greenville is, I am concerned about the roads here taking away from such beauty. Not only this, but I am also concerned about the safety surrounding us while driving on such harsh roads.

For instance, just for a normal day to school, work as well as practice, I encounter numerous roads chipping at the edge, many potholes, as well as countless treacherous "patchwork" on places that have already been tended to. I constantly have to switch lanes and go well below the speed limit in fear of damaging my tires.

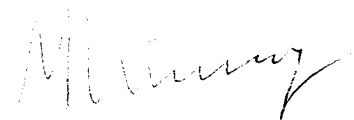

As a South Carolina citizen, as well as someone who is an active voter, my main fret is for the safety of our fellow citizens. Along with this, I am truly concerned about what steps our government is taking to prevent accidents and mishaps by fixing the roads and creating a safer environment for our citizens in general.

Please explain to me exactly what these steps for improvement are and the plan for accomplishing these goals. What actions are being taken to prevent citizens from injury or moving due such terrible roads?

As an active voter, not only will these concerns effect my decision but I do believe it affects everyone who plans to participate in the next voting. The next actions taking in the considerations may as well predict the future for our citizen's safety as well as my decisions in voting.

I will look forward and await your response.

Sincerely yours,

A handwritten signature in dark ink, appearing to read 'Madison Lindley', with a stylized flourish at the end.

Madison E. Lindley
