**scstateparks** Check out this cool, brown pelican perched on the Myrtle Beach State Park pier this past Friday. Remember not to touch or feed brown pelicans as they have very strong beaks! #scstateparks #myrtlebeach #brownpelican

**nimbusgss** I saw that pelican the entire time I was in the water, I remember thinking if I wasn't in the water surfing and shooting waves what a great picture that would be. Glad you captured it. By the way I'm in this picture too. That's me in the water :-)
