This is my second attempt to contact you re: refund. I checked my status July 2 and the site said processed. I checked my status again on July 6 and it said being processed. I contacted the office and spoke with Linda who said I would be contacted within 3 weeks, but of course no one contacted me. It is now Aug. 12 and still no word, no call and my refund is still being processed. I need my refund more than you....Would someone in this office please expedite my refund?
