Subject: Fw: Call in info for Friday

Hey y'all,

I'm putting together some info for the Governor's call on Friday with the NFIB. John is preparing some background on the Reg Review comm and Veldran is getting background on Rep Rivers bill.

I figure y'all will have some information to add as well. I don't want to limit y'all to what's below but do you have any background on these topics.

Let me know how I can help. I'm planning to reach out to the cabinet but any guidance you can provide is appreciated. I'll be back in the office this evening.

JT

Jeff,

Call or email anyone you have to in order to get the right information.

Thanks for the response.

I would expect that we will hear a number of questions regarding regulations and how they can be overbearing on small business. The small business regulatory review group at commerce as well as the Governor's task force have been doing a great job in weeding things out. NFIB has a number of folks on the commerce reg group

I would touch on UI reform and how things are getting better and the payments that have been made and how it has lowered costs

Any tax reform plans (NC has overhauled their whole tax plan so folks are asking if we are looking at

something similar)

How new business to SC such as a boeing has trickle down to small business

What type of things are being done to develop a better workforce for SC. Working with tech schools, Universities, high schools, etc. We need to have a work force to work in small business.

Business license fees and anything that can be done to help with them. (Samuel rivers has a bill in the house that we are interested in)

This should be a good start. Let me know if you have any other questions

Ben,

Thanks for the help. Please provide us with a list of items / talking points you want the governor to hit on during the call.

Thanks.

Ben,

Here is a link to Governor Haley's latest bio: <http://governor.sc.gov/About/Pages/GovernorBio.aspx>

Thanks for the call information. I have copied Jeff Taillon and Doug Mayer. They will follow up with you should our office have any questions.

Thanks,

Nicole
