Subject: SAVE OUR JOBS

---

Governor,

Is our jobs worth the politics that you are allowing Santee Cooper to play out? Are you willing to let our jobs go away, just so Santee Cooper and others can buy the property that Mt Holly sits own? Are you too a part of that plot?

You know we have families that can't enjoy this Christmas Season, like you and Lonnie Carter's family is enjoying right now? I can't sit down and watch a Christmas movie with my family, or put up a Christmas Tree, bake, purchase presents as I know that after December 22, 2015 I will have no job. There are no jobs in this area that pays employees like Mt Holly. So, you want to see us lose these jobs, which by the way employees about 50% minority employees? Please help us stop Mr Carter. Let us have some peace to enjoy this season. You and you alone can stop Mr Carter and his greedy Mt Pleasant friends from forcing the plant out of business. His friends are already talking about the land purchase and he is unwilling to work with us at all costs. The plan has been lowered to only one line now as Mr Carter's greed has allowed some of our customers to pursue there metal elsewhere. Fire Mr MAN OF THE YEAR.....oh, I forgot..he doesn't answer to you only the board members that you appoint whom he has in his pocket to vote as they are instructed and then Santee Cooper is run by his family. Sounds like a state owned company to me.

Show you have some humanity, make the call to Mr Carter. The land deal is the issue as there would be no other reason for you to sit aside and let Mr Carter destroy our livelihood and just decide that the land is more valuable. Maybe, we should contact the national news programs and alert them to the possibility that Mr Carter is only trying to force us out so that he and his friends can purchase the property. Is that worth the 600 jobs that will be lost??? Please help us to save Mt Holly and the 600 families that will lose medical dental and vision benefits as well as the way to provide for our families.

You said, this plant would not close because of power, PLEASE help us.....
