

Jail pers are flimsy sorry for the messy writing
They want to bond me Ahh... but I haven't committed
a crime. They're breaking the law! 2-25-15
Hello Governor Halley;

Ahh... so she wins again! Well here
I am falsely imprisoned, as I wrote around
the country to protect me and my six kids.
Those who stalked me to steal, Kidnap my
children, created falsified court orders, false
warrants and false evidence, so they Kidnapped
my Kids then Kidnapped me. Threw me in here
to stall for time to gain custody of my children.

I have been falsely imprisoned now for six months.
Nope. I haven't committed a crime in my whole
life except for being the race and color of my skin.
You automatically lumped up as a criminal,
criminalized and if you're a woman especially a
black or woman of ethnicity you will be, they
tried to do it to me, pushed automatically ~~down~~
down the road of mental insanity. Governor Halley
when I first got here I was fighting for my
life. They Betty Blues, tried to have me starved.
I went down to 104 pounds. She had me spit
at in the face, called a "cunt", isolated for
23 hours, 23-seg more isolation, for 7 days,
then for months and months, trying to push
me into insanity. My heart stopped twice
with elevated blood pressure of 210/113. I was at
death's door, I mean someone falsely imprisoned

me I was/am sitting in jail and have never committed a crime in my whole life. What the people terrorizing and stalking ^{me} did created dad's off of voice mails parents leave for their children at the schools and add ~~in~~ incriminating words like murderer, kill, anything incriminating then began to duplicate more dad's, adding different names. They may use high officials names like judges and then tell the judges you threatened them, to kill you, get you live in prison, medicated, deemed insane, and then run off with your children, prostitute them, molest them, traffic them, and sell them, so they threw my kids in the system with a falsified court order, terrorized them for about two weeks. Judge Whulfield, I'm sure you had alerted the FBI my kids were stolen, and kidnapped, got them out of dependency and got them to my biological mother. I was trapped in jail at the time, ~~for~~ having been beat on ~~in~~ by a young deputy friend of the lady committing the corruption and fraud to steal children, so I have been trapped in jail now for six months. My children haven't seen me for six months, terrified and afraid for their mom, me. They are with my biological mother, but damaged

from the terror. Imagine if you a kid and you know your mom hasn't committed a crime, but they have your mom trapped in a jail and won't let her go. Pretty scary for a kid. They did horrible things to me here for Betty. They are trying to expire me now, meaning, leave me here for 1 year to force me to lose my parental rights. ~~but now they~~ ^{they} chained ^{me} ~~me~~ and walk around in chains. Pretty sick and nope I haven't committed a crime. This is a bold government to leave me falsely imprisoned because I am a woman black Latina, a minority and poor. The goal of the women framing me, affluent rich in the majority, they told my kids ^{to} falsely imprison me for life and kill me. My kids the day the lady falsified court orders got Cop friends of hers, that were not dispatched to where me and the kids had to stay, because ~~we~~ we were being denied our civil rights, Bill of rights, our Constitutional rights to a home, a job, our family, our dog, our property, a life of freedom in our country, to come take my children, my kids were screaming. My son, I am so proud of him, looked at me with a stern look and told me be safe, they had guns. They weren't suppose to be there. They threw ~~the~~ them in the

THURSDAY! PLEASE GET ME RELEASE Y'all p they interfere with me!

Oh and y'all they will go around saying ~~see~~ (5)
~~has been there~~ shes sick, mentally ill. Hope I
have pass several in the pass. Their evil and brains low
under the my like trash; No regard for my
children, my family, my dog. Then we have
to play the game of whether they will or want
to not me, first offender me, but ~~there~~ ^{there} only
one problem, I Haven't committed a crime, so
"Nikki", Pride; they won't release ^{me} because they
have the power not to. So welcome to being
a woman, a woman of color, discrimination, racial
and gender.

So here I am finally falsely imprisoned.
Possibly Deal had hoped they would have driven
me to insanity but now to shut me up so...
they can attest to wrong doing, ~~or~~ or a government
official committing a crime. Or then that would
be a "claim," so they tell me first and hope to
estrangle my children, so they keep me here
a year breaking the law. But hey who cares
there the government officials. They can do
whatever they want, they say.

Please alert all Governors that I am finally
here falsely imprisoned ~~now~~ they have portions of
my journals. Kimberly Gomez, mother of six

car and road off. I emailed the FBI. The next day I was suppose to pick them up, the night before, I was being beat up by a young deputy doing Betty Blassa favor. I was walking back from ~~the~~ Whole Foods market it was late no one was on the street but me, so the young woman jumped out of the deputy car with two other men, and said, 'Is anyone looking?' They replied, 'no'. She then began to beat on me, kidnapped me, threw me in the car and road off throwing me in this jail. They secured a false warrant, created false evidence, duplicated the false evidence, know I haven't committed a crime but ^{they} won't let me out, hoping to have driven me to insanity by now. I have been through a lot of terrorism. I was thrown in a room of feces and urine, stripped naked, everything to try to make me lose my mind. Currently I am being forced, enduring 23 hour isolation. Have I cried. Yes. Yes. Yes. How could anyone be so cruel? I spent my whole life not committing crimes and look ^{where} ~~where~~ it got me? I have a right to my children, a home, a family; where are they? So.... and humph.... and this is my government. They won't let me out, that would be like admitting to wrong. They rather just killed me, sweep me
