Hey Rebecca,

Closing the loop, I Spoke with Joe and they are indeed working on two fronts that could result in expansion, it's early but will let you know if/when we can call it a project. Thanks for the hand off!

FYI: Joe was my counterpart on the original project, and he was very complimentary of your office's follow thru and support. They are also looking forward to the Gov cutting the ribbon on the new facility on the July 8<sup>th</sup>.

Many thanks,  
AndrÃ©
