**Subject:** WLTX Request

WLTX would like to request a copy of a letter (under the state's Freedom of Information Act) that was sent to Gov. Haley by the attorney for Batesburg-Leesville, asking for a SLED investigation into the town's failed water/sewage project. I understand the letter was likely dated Feb. 26, 2013 and came from the office of Christian Spradley of the Moore, Taylor, Thomas Law Firm.

I would also like to request (under the FOIA) any other documents/emails from the Governor's office pertaining to the Batesburg-Leesville water project and its proposed partnership with Saluda County.

Thanks for your help.
