

To whom it may concern or (Nikki Haley)

- My name is Phillip Matthew Croley and I am writing with severe concern for my fiancée Terrie Lee Bowers Age 43, Health, even so her Life! As of approximately February 2016 she was diagnosed with (Cirrhosis of the Liver) This devastated our family. She currently has applied for her Medicaid repeatedly, and has only been approved for family planning! This doesn't cover her medicine nor does it cover the cost of a liver transplant. Not to mention she has several other health issues that must be addressed, including - (Gastro peresis) which is a paralyzed stomach, (Esophogial Veresis) which is bleeding of Blood vessels in her throat that have burst twice due to lack of medication, which could have killed her and requires immediate attention (Neuropathy) which is deadened nerves in her hands and feet which cause (Edema)! High (Blood Pressure) and many other issues that cannot be properly treated without (Medicaid coverage). Her disability has elegibly been approved but yet no checks have began and she still lacks coverage and has approximately 1 Year to live

I and herself are out of options on what else to try or due and I fear that if this problem isn't addressed properly that I am going to lose the only person in this world that I love more than my life its self! Please if possible I am begging you to please look into and help me fix this life threatening delima! I am begging! She has no coverage with life threatening issues while others with depression have full coverage! This just isn't fair! Her Lawyers name is Robert J Surface of Greenville and Honea Path S.C. and Her Birthday is June 5th 1973! She is unable to work and pay her Bills let alone buy her medication! She has two daughters and 2 grand children that love her as well! With great sympathy

(Congrats on
