

In Reference of Jared McCullough

3-10-2016

Dear Governor Nikki Haley,

I have a grandson in Lexington County jail who is an addict, He is not a dealer and never has been, what he does he does to himself. He and I both have begged for him drug rehab. They are talking about prison, which he needs rehab. Please see what you can do. He and his brother never had a childhood as my son their daddy passed away when they were little. Their Mother was an addict and she drugged them around every drug house she could. Her and her boyfriend talked them into taking drugs when they were little. Their whole life has been ruined. Please I am begging you to send Jared to Rehab if you can talk to the Parole officer to do it. Instead of Prison. He stays with me when he is home. I am seventy nine years old and I have many bad health problems, like Cancer and heart and many more health problems and when he is here he helps me what he can. He is quite and keeps to himself. He doesn't bother nobody. Also Jason and Jared lost their Mother last Feb. 22. So all they have is me. Please send him to Rehab. not prison. The only harm he has ever done was to him self. He is an addict not a dealer. Please help him. I thank you from the bottom of my heart-Betty McCullough
