Dear Governor Haley,
I would like to bring
an employment issue to
your attention.

I've worked for my
husband was laid off after
14 years of service to the
City of Lancaster. This
resulted after he had a
sudden death issue and
received a pacemaker/defibrillator.
The excuse used was it
would be cheaper to outsource
than to pay him and keep
up the club he was cut
with 10 days of insurance and
no severance package.

The issue at hand is
that the employment office
here is telling him he's not
getting paid anymore because
of his age and a pacemaker.
He has been cleared to
work by his doctors at
C.M.C.

He applied for three
jobs in our state capital
for the waste water treatment

which is his field. He is an A operator and has a Bachelors degree and 14 years of wastewater experience as a Lab analyst / Lab manager.

He applied for 3 jobs here they are.

- ① Assistant Waste water Plant superintendent. (City of Columbia)
 - ② Water-wastewater operator I
 - ③ Laboratory Analyst (Water/wastewater) (City of Columbia)
- This one is what he did for 14 years.

He has not even been interviewed! He received a generic card stating "Thank you for applying and his application will be held for review."

I feel this is an issue that needs attention you shouldn't be able

to overlook a person
for the health of race.

All he needs is a chance
to prove himself. He
was planning on working
no less than 7 years
maybe longer.

PLEASE HELP US.

Thank you.
