

3/24/16

Dear: Ms. Nikki R. Haley

Hi Ms. Haley, I am writing you from Kirkland Correctional Institution. I am inmate Rodney Jvey housed in the Super Max unit. I am writing you concerning a lot of issues and problems all of us inmates are having up here in Super Max. I would like to start with the way staff members are doing their job. The staff cancels our recreation on an everyday basis. They tell us a number of different reasons of why they cancel our recreation. Most of the time we find out that it is not the truth. They won't even come around and pick up our empty food trays, they leave them in our rooms over night. A lot of times when they do serve our food it is cold and the milk or juice is hot. Also the staff is supposed to come around and do charts every 30 min, and it might be two or three hours before any staff comes around. We have to heat on the windows and bang on the doors for hours at a time to get staff to come on the wing for certain reasons. I mean if someone was to be hurt or have something serious wrong with them they would be dead before anyone even could help. When we sign up to go to medical it might be two, three or four weeks before you even get seen, then sometimes you might not even get seen. I have been in this building almost two and a half years and I think they might have come around twice with cleaning supplies for us to clean our rooms. When we ask for cleaning supplies they tell us they will have to see if they can find something but they never come back with anything. I mean we got intercoms in our rooms and if an inmate is banging on the window or door concerning a problem or situation they need to talk or see someone about, they are too lazy to even press the intercom button to see what the inmate might want. The person could have something serious wrong or could be hurt and staff wouldn't even know or care.

I know that i am an inmate and i am in prison. But i also know that just like inmates have rules, policy's, and procedure's the staff also does. But they make up there ~~own~~ own way to do things. When you say something to them about it they tell you deal with it or what are you going to do about it. My mental health counselor is suppose to be someone i can talk to about my problems and he is suppose to pull us out once a ~~month~~ month to assess me but he dont. He tell us lies all the time and when you catch him in a lie he says they train him to lie to keep our spirits up. I can tell him i am having mental health problems and i need to see my ~~psychiatrist~~ psychiatrist doctor he will say ok or he will see and most likely he wont do nothing. Then when you ask him he will say oh i forgot or tell you some lie. He is very unprofessional at his job. Plus we been back here all winter with no heat in this building. They say ant nothing they can do about it. I have had my family call up here severail times they tell my family that they gone handle it or look into it and they never do. Then when my people call back they tell them oh we done handle that and the whole time they ant did nothing. I got into a situation and they did a forced cell movement on me. During that time they lost my eye glasses. They told me that they wher going to replace them but its been two months and i still havent gotten a new pair of eye glasses. I cant even do my legal work or read my library books. And the glasses they lost my family bought and sent to me. Everytime i ask about my glasses they say the same thing oh we working on it but its been two months and i still havent gotten another pair of glasses. There is alot of things going on back here that is wrong. I am not writing trying to get any special treatment or anything like that. Again i know i am an inmate in prison but i know they got policy's and procedure's they have to follow also I know you are a fair person and you make sure things are done right. I just ask you to please look into this and hopefully you can make a change in this situation i just ask that we be treated fair as we should be treated. I thank you in advance for your time and hope you can make a change in this thanks and god bless.

Sincerely / Rodney Dale Jones
