Dear **Members** and **Friends**,

Today is **Bill of Rights Day** and now, more than ever, our nation must recommit itself to the principles enshrined in the **First 10 Amendments of the US Constitution!**

So many of our rights are under leftist attack, including the **First Amendment** rights of religious liberty and freedom of speech (especially on college campuses); the **Second Amendment** right to bear arms; the **Fourth Amendment** right to be secure against unreasonable searches.

The **Tenth Amendment** has been completely obliterated by the Federal government's usurpation of state's rights. **Amendment X clearly states:**

*The powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the states respectively, or to the people.*

These are the reasons why our Foundation holds an annual **Christmas Celebration of Religious Liberty and the Bill of Rights**. The details for tomorrow night's free event are below. We hope you can join us!

**TRUMP v. CRUZ, LIMBAUGH, LEVIN, et al**

**Trump** has called **Americans and lowans "stupid."** He has insulted **women,**

**blacks, POW's, Hispanics, Seventh Day Adventists; and the disabled--** actually physically mimicking a handicapped reporter. He has compared **Dr. Ben Carson** to a child molester.

But none of that seemed to bother **Mark Levin, Rush Limbaugh--**or most other national talk show hosts--who continually defended Trump--until the Donald had the audacity to attack **Cruz--**after Cruz had described Trump and **Carson** as unfit to lead the nation.

That's right--Donald Trump called Ted Cruz a "**maniac**" who is unqualified to be president. **Trump said of Cruz:** "You can't walk into the Senate, and scream, and call people liars, and not be able to cajole and get along with people... he'll never get anything done and that's the problem with Ted."

**Cruz responded by turning the other cheek.** Of course, Cruz didn't need to say anything, the national talk show hosts did the heavy lifting for him. When you mess with Cruz, you mess with Limbaugh, Levin, et al. **Just saying.**

For the record, the **Independence Hall Foundation is a non-profit organization** and does not endorse candidates. But we can observe and report on their behavior.

After all, it's our First Amendment right.

## **PARIS CLIMATE CHANGE AGREEMENT**

**The good news:** The **Climate Change Agreement** reached in **Paris**, over the weekend, is unenforceable thanks to the **Republican Congress** who would not vote to enact or fund its provisions--but that didn't stop the negotiators from celebrating as if they had saved the world.

**The bad news:** The propaganda war perpetuating the **global warming myth** has been given a boost by this agreement and taxpayers from the **US and other western nations** could be pressured into paying a **\$100 billion annually** to assist undeveloped nations in their attempts to meet the agreement's unattainable goals.
