himself because it requires law enforcement to arrest and charge Dante, Gorgio, Elgin Watkins along with several drug lords and a bunch of drugs of choice? Yes.

Top Cop. My experience with a Top Cop in SC was with Capt. Jeff Stevens of SLED a few years back. When you meet and experience a Top Cop you know he/she is Top Cop. There was an approximate five minute meeting just a short time ago with Capt. Mike Warren, Highway Patrol. Capt. Mike Warren is a Top Cop. Clearly you know when you experience a Top Cop for five minutes or for approximately one hundred and ten minutes, you know that cop crime fighter is a Top Cop. Lt. Henricks of SLED (then) and Capt. Henricks (now) is not a Top Cop. Police Chief Wolfgang is not a Top Cop. Top Cops are not made.

Could crimes, especially drug lords, long time drug lord crime families be reduced by at least 45% in approximately 120 days in Greenville, SC? Yes. Could crimes be prevented and reduced in Greenville, SC in about the same time, especially the long time drug lord families and drug dealers? Yes. What would it take to clean up the City Police Department? A Top Cop.

To win back control of drugs in Greenville, a Top Cop is necessary. Too many law enforcement officers spend their lifetime in law enforcement. Greenville corner stated homicide along with other issues occurred, and so supported by law enforcement experts around the country. If politics pays off the damage, this does not exempt the murder that occurred. I also believe that the department of SLED could do and should do a better job at investigating police officers, along with solicitors. At least the ones that want me out know that Greenville City and County detectives solve murders real quick and fast. This is also credible.

Has the City Police moral confusion and training improved these past years of this administration? No. Does City Police provide safety for numerous people at the large or the public at large, Oct. 25<sup>th</sup>, 2013 front page press release? No. Does Thomas Firriolo believes that the war on drugs has been lost in Greenville, SC? Yes. Was the City Police successful at reducing drug arrests involving drug lord families going on for years under this administration? No. Has the Greenville City Police Department bar been raised, and officers put into a better position, press release March 5<sup>th</sup>, 2014? No. March 3<sup>rd</sup>, 2014 was Chief Wolfgang disappointed at developments that day? Yes.

Has law enforcement examined the risks involved with that many people, at one time, for their safety, and immediate emergency care and attention? No. If God forbid a large boom sound should take place, on October 25<sup>th</sup>, 2013. This was just to promote and advertise how many people would come to Greenville Main Street at one time. Which should never happen again.

Sincerely, Thomas Firriolo 11 Addie Ct. Greenville, SC 29605

CC: Greenville Admin.; SLED; Capt. Mike Warren; Jeff Moore; Director of the Sheriff Assoc.

*Does Mr. Firriolo trust City Police administration? No.*

3/19/14

Dear Sheriff Loftis, Major, and Detective Sargent, Greenville County, Sheriff's Office,

Mr. Gerard Watkins was arrested last week along with one of our teen gangs, few members. Investigators discovered 100 lbs of drug weed. One drop in an Olympic size pool. This drug dealer, den of iniquity, was a target at large for some time to break in. He was not liked, abusive to women, especially hooked on drugs. Just a punk drug dealers, always on forever in competition with his younger brother, Danta, Gorgio, Elgin Watkins, drug lord.

In brief, and please take the time to read, thank you. Gorgio and Elgin Watkins both raised by Red Erby Jennings (deceased) at 6 and 10 Addie Court. Their mother (alive) persuaded Red Erby they were his sons. Street talk at large is reliable, dependable, and most times credible, said otherwise. Both of these males had two different fathers.

Red Erby, known to many, was more than a drug lord, among the long time drug lord families in the Sullivan, Sterling, and surrounding communities, of Greenville, SC and beyond. Mr. Erby raised both males at 6 and 10 Addie Court next door to 8 Addie Court. He also helped raise the niece. Her and her aunt's employment was and still is correctional employees. Red Erby had connections with city police. City police was informed.

They were also informed the three properties 6, 8, 10 Addie Court were connected, which was the subject of approximately 2000 days of my investigation. What a setback and terrible blow that no investigations took place, no police interest, provided no police contact. 6, 8, 10 Addie Court was more than 2000 days of investigations. Drugs were manufactured at 6 Addie court, stored, transported, distributed, locally and delivered and sold from 6 and 10 Addie Court. Between them and in the middle lived, worshiped, and went to business at the correctional institution, the aunt and niece at Addie Court.

There was a fire at 10 Addie Court, this time terrible odors. Fire trucks came put the fire out, there was no examination or investigation of the debris. Calls were also placed to the health department. There were numerous cars at 10 Addie Court for a long time before the city inspectors addressed that issue. The cars were used to store drugs, drug hangovers, most by and used by customers of drugs.

The city police was provided information on going. So close to catch one key delivery driver via scooter, the same scooter and man on record for years. No investigation ever took place. Suddenly they were alerted. Elgin and family moved out, 6 Addie Court became a trap house to store and sell drugs. I did not handle the loss of such a long time wasted investigation well. The results, I had a stroke recently. I am back now with more chapters.

Does Thomas Firriolo believe, in spite of the lack of police support which is the life blood of crime stoppers to examine, investigate, and inspect credible information, to help someone unable to help
