## South Carolina State Parks

at 12:32:11 on 5/26/2021 UTC · 🌐

Remember.....we want to keep beaks on the beach this summer! Listen up as Ranger Mike from Huntington Beach tells us why and how you can help share our "southern hospitality" with our feathered friends. Thank you!

### Keep Beaks on the Beach

**Version:** Current

**Tags:** edited

**Mina Harrington** I don't have a problem with what is done at Huntington, but have significant problems with what has been done at Hunting Island. My dogs are always on a leash, and I don't allow them to disturb birds. I have gone to Hunting Island many times and have walked to the area that is now closed off. It was my favorite area. The same is true for Jekyll Island. I will NEVER go to either one again. I will not waste my money to go to places that keep me corralled into smaller places with all the other "troublesome" humans.
