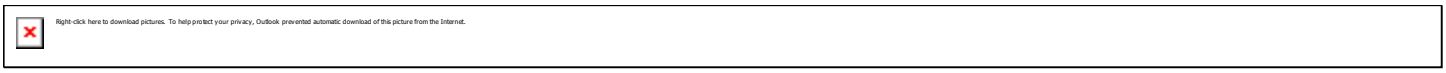
Subject: WEBINAR: On 7/19, Smart Integration for Faster Innovation. Sign Up!



Learn how federal and state agencies are speeding up innovation and improving results, despite budget and talent constraints, by applying the lessons of smart IT integration. As data streams from more and more sources — from video surveillance systems to shared data services — it's critical that IT and program leaders choose the right technology options to process and store that data more effectively and make faster decisions. **Learn more about:**

Choosing optimal service platforms for on-prem and multi-cloud operations
New tactics for lowering storage and infrastructure costs and improving performance
Creating a roadmap for managed and analytics services
