Even if you don't camp in bear country, you could still have a better camping experience by following some simple "bear-proofing" practices. Join the Animal Forest keepers to learn how to make your campsite less attractive to wildlife like raccoons and bears. But don't take our word for it; our bears will demonstrate what happens when you don't follow good camping practices! Saturday May 25th at 2:00 pm. **\*\*NOTE:** This photo was staged in the Charles Towne Landing Animal Forest.
