Subject: New ADSSP funding opportunity

The Department of Health and Human Services Forecast site has just posted notice of a forthcoming, FY2013 Alzheimer's Disease Supportive Services Program Funding Opportunity Announcement (FOA) entitled, *Creating and Sustaining Dementia-Capable Service Systems for People with Dementia and their Family Caregivers*. We anticipate that the FOA will be posted on www.grants.gov in early June, with applications likely due in early July. Those who are interested in reading a brief summary of the forthcoming FOA, could go to the following website:

https://extranet.acf.hhs.gov/hhsgrantsforecast/index.cfm?switch=grant.view&gff_grants_forecastInfoID=65702

Best,

Your ADSSP National Resource Center Team
