

WHAT CB&I CAN OFFER SOUTH CAROLINA AFTER THE OCTOBER 2015 FLOODS

Maximization of Available Recovery Funds
While Expediting Resilient Recovery

CB&I Recovery Services

- State level program management or staff augmentation overseeing complex recovery/resiliency programs that help clients survive, adapt, and thrive
- Strategic policy advice and management of federal grant programs, including:
 - FEMA Public Assistance (PA) and Hazard Mitigation Grant Program (HMGP)
 - U.S. HUD Community Development Block Grant-Disaster Recovery (CDBG-DR) Programs (Provides funding for housing permanent repairs as well as state-local match to FEMA PWs)
 - U.S. DOT Federal Transit Authority-Emergency Relief (FTA-ER) and Federal Highway Administration-Emergency Relief (FHWA-ER) Programs
 - National Flood Insurance Program (NFIP)
 - Grant Closeout
- Advice and solutions on post disaster insurance issues
- Temporary and permanent housing solutions:
 - FEMA Shelter and Temporary Essential Power (STEP)
 - Renovation, Reconstruction, Elevation, and Mitigation (single/multi-family)
 - Small rental recovery programs
- Infrastructure support and repair services
 - Flood protection structures including failing dams, levees, and pumps: Recent experience with high-hazard potential dams/Emergency Protective Measures/Permanent Repairs/Ideas on solutions for funding of permanent repairs to South Carolina Dams
 - Water, wastewater, and sanitary treatment and distribution systems
 - Transportation facilities including: ports and harbors; bridges, roads and highways
- All services related to beach renourishment including engineering, modeling, geology, biology, surveying, and construction.

CB&I Discriminators

- **The Complete Package:** Large firm with the capacity and bandwidth, both technically and financially, to perform the work. Turnkey recovery services from professional consulting to large-scale field operations.
- **Rapid and Effective Workforce Mobilization:** Past experience of recruiting, hiring, and mobilizing, within 3 days, over 200 local workers from affected area.
- **Public Assistance:** Developed 34 of 38 first of its kind FEMA 428 Alternate Programs (~\$2B) after Hurricane Sandy
- **Temporary Housing:** CB&I lead FEMA STEP program provided exceedingly better than minimum shelter standards provided by other smaller STEP-like programs.
- **Permanent Housing:** Unrivaled HUD CDBG-DR funded long-term housing recovery experience.
- **Dams:** In-house geotechnical field force to implement assessment and permanent repairs to failed/failing/weakened dams.
- **Flood Control Structures:** Post Katrina program manager over Inner Harbor Navigation Canal Surge Barrier, New Orleans, Louisiana – U.S. Army Corps of Engineers largest design-build-construct projects (\$1.2B). Project received the American Society of Civil Engineer's 2014 Outstanding Civil Engineering Achievement award.
- **Beaches:** More beach renourishment projects than any other firm in U.S. Louisiana barrier island restoration during BP Oil Spill in Gulf of Mexico. CB&I marshalled and managed >85% of the U.S. dredging fleet (both cutter head and hopper dredge) and began pumping sand in 2 weeks.

Why the CB&I Team?

- **Client Benefits from CB&I's Relevant Experience**

- A national firm with existing FEMA, HUD, USACE, US DOT relationships and experience that it can use to help the state manage the recovery process.
- Maintains an approach to listen and learn about client needs resulting in developed solutions based on best practices of disaster recovery projects/programs CB&I has led from '99 California Earthquakes to Katrina to Sandy.
- Current Hurricane Sandy recovery projects provide us experience in the latest policy updates (428/Alternate Projects, Evolution of the rules, plan for procurement/audits) leading to recovery funding maximization.

- **Vested Recovery Partner - Believes South Carolina's Recovery is Our Recovery**

- Company with significant number of its employees (3,500 of 54,000) who live and work in South Carolina.
- Since 1994, CB&I has had 1,200 different projects worth ~\$20B throughout South Carolina in the utilities, power, transportation and solid waste sectors as well as with state, local, and federal agencies.

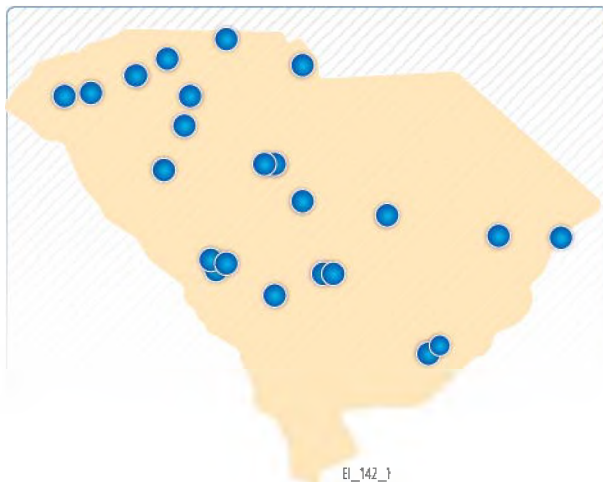

- **We Support Diversity**

- Supports keeping as many recovery dollars in South Carolina by hiring South Carolina employees and subcontracting with local small disadvantaged/minority businesses. We will exceed our small business goals.
- Supports and promotes the Women's Leadership Network (WLN) - a corporate wide organization designed to provide an avenue for CB&I employees to take charge of their careers and foster professional growth through mentoring, networking, and professional development activities.
- Proven Section 3 hiring efforts and community outreach across multi-lingual communities.

- **Proven to be Military Friendly**

- Veteran friendly company with focused hiring efforts targeting prior service and current National Guard and Reserve service members.
- Multi-year award winning ESGR company as well as leading participant in Governor's Operation Palmetto Employment.

- **Desires Competitive Procurements Based on Best Value for Clients to Ensure Maximum FEMA Reimbursement**

CB&I has 3,500 employees at 23 locations throughout South Carolina.
