For non-profit organizations, the sponsoring organization must provide proof from the IRS that it has held and maintained its non-profit status for at least five years prior to the application date.

The sponsoring organization can also designate that the Department distribute proceeds of the plate to the agent. An example would be a national organization that designates a SC chapter of the organization as its agent.

SECTION II: PURPOSE/BACKGROUND

S.C. Code of Laws §56-3-8000 prescribes the process for application for and issuance of special motor vehicle license plates requested by applicable non-profit organizations. S.C. Code of Laws §56-3-8100 and specific sections of the Code authorizing the production of individual specialty plates prescribe the process for other organizations seeking specialty plates.

This policy sets forth the requirements for: making application for a specialized plate by an applicable non-profit organization or any other organization authorized by specific statute; approval of the plate design by the Department; appeal of the Department's design decisions, where applicable; production and distribution of the plate; persons eligible to purchase the plate; and distribution of the funds collected from the sale of the plates.

Organizations applying for approval of a specialized plate must meet all application requirements established in this policy before the Department will consider the proposed license plate design.

This policy applies to non-profit organization plates that meet the requirements under this policy as well as specialty plates requested by any other organization or for any other purpose authorized by law.

Requested plates may have imprinted on the plate the emblem, a seal, or other symbol of applicable organizations that the Department considers appropriate. It is the intent of the Department to ensure that all designs submitted for

POLICY RG-504
SPECIALIZED PLATES FOR ORGANIZATIONS**

consideration are not offensive and meet community standards of propriety. Designs displayed on state license plates are approved by the State for display to all audiences on the public highways and are the sole responsibility of the State. While the Department can be flexible in considering a range of potential specialty license plates, the public must also be protected from state action that might be construed as using taxpayer-generated funding to create messages or impressions that are not appropriate for a governmental entity.

This policy is also intended to protect the Department, as a public entity acting on behalf of all the citizens, from allegations that it improperly sponsored partisan messages, divisive positions, or inappropriate language or designs. To that end the Department will employ criteria published in this policy during its design review process.

SECTION III: GUIDELINES

A. Application for Design Approval

1. All Applications for organization plates

In order to request approval for a specialty plate governed under this policy, the sponsoring organization must provide the following to the Department's Special Plate Review Officer:

- c. Sponsoring organizations may designate an individual or organization to act as an agent on behalf of the sponsoring organization. Organizations assigning an agent individual or organization must complete form RG-504d (Attachment 5) to authorize the Department's dealings with the agent.
- d. Written authorization for the use of any copyrighted or registered logo, trademark, or design to be used on the plate.
- e. License plate artwork for the design of the plate on CD/diskette in specified graphic format, and one (1) color hard copy of the artwork. Artwork for plate design must meet all specifications set forth in Section III.B.2. below.

 - Application for Approval of Organizational Specialty Plate, Form RG-504a, must include the amount of the fee to be charged for the plate, above and beyond the normal registration fee, and how the fee will be used or distributed.
 - Organizations will receive the proceeds from this special plate fee; however, organizations should be aware that a portion of this additional fee will be retained by the Department to defray the expenses of producing and administering special license plates.
 - The Department will disburse funds collected from the special fee directly to the sponsoring organization or its designated agent. It is the sponsoring organization's or agent's responsibility to distribute the disbursed funds to any other entities.

2. Additional Requirements for Non-Profit Specialty Plates under §56-3-8000

 - Documentation from the Internal Revenue Service showing that the organization currently has a 501(c)(3), 501(c)(7), or 501(c)(8) tax exempt status.
