Underwater Bridge Inspection Project No. 21:

The Director of Maintenance-Bridge Maintenance Office seeks approval to advertise, select and negotiate with a Consultant Engineering firm experienced in all phases of underwater bridge inspection. This is a required inspection process for certain bridges under the FHWA National Bridge Inspection Standards (NBIS). We also seek approval to contract for 2 years with each years work to be negotiated and approved before proceeding with the inspections. The inspections will be paid out of Federal Aid Bridge Funds.

The Department does not have all the resources to perform this type work so the use of a Consultant Engineering firm is justified.

Request approval for full depth patching on S-58 (Plowden Mill Road) for 6.06 miles in Sumter County. This work will assist in the rehabilitation and preservation of the existing pavement, which will also improve safety and rideability of the road.

Total cost of this extension will be \$178,774.52. (Original contract amount \$620,574.28)

Existing contract funds from a general underrun of contract quantities will be used to cover the cost this extension. Road S-58 is listed as a candidate for the 2008-2009 Non-Federal Aid Rehabilitation Program.

Extension to provide replacement of an existing 36" concrete pipe and wooden headwall with an 84" aluminum culvert, headwall, and riprap along Waldon Road (S-1840) from approximately mile post 0.10 to mile post 0.24 in Charleston County.

The existing pipe and roadway section have failed forcing the closure of the road to through traffic. The Department is currently maintaining a private dirt road to allow residents access to their property. Hydrology has recommended the increased culvert size to provide a permanent solution.

Cape Romain Contractors submitted the lowest bid. This work will be included as a extension to File 10.146B with a contract amount of \$4,860,709.11. This extension request is for the placement of thermoplastic only on this portion of roadway because currently it does not have thermoplastic, but it is located between two sections of roadway that will have thermoplastic placed per the current contract.

This extension will cost \$2,351.40. The cost of the current contract is \$946,425.09, and the additional work will be funded from an underrun. This extension will not increase the contract amount, and the completion date will not change.

Due to the fact that the contractor is actively working on this contract, it would be in the best interest of the Department to take advantage of the competitively bid unit prices available and extend this work to File 15.170801.

In accordance with Code of Laws of South Carolina, 1976, Section 57-1-370 (M) and (N), and SCDOT Standard Specifications of Highway Construction 2007, Section 104.04.

SCDOT COMMISSION AGENDA

For Commission Meeting of: May 14, 2008

- RATIFICATION
- APPROVAL
- CERTIFICATION

- CUFF ITEM FOR APPROVAL

DETAILED DESCRIPTION:

Request Commission approval of the additions, deletions and corrections to the State Highway System as shown on the attached pages.

Recommended By:		<u>4-29-08</u>

Division Director Approval:		<u>5-2-08</u>

Removal of Roads From State Highway Secondary System

The Department recommends Commission approval for the removal of certain sections of secondary roads from the State Highway Secondary System. These sections of roads may be removed for one of the following reasons:

1. Abandonment of Relocated Section of Highway
2. Deletions and Removal of Roads from State Secondary System - Roads may be deleted and removed from secondary system by exchanging for equal or less mileage or roads, which have a higher traffic importance. Ownership reverts to local government having jurisdiction (city or county). Approval of deletion or removal by local government is not required.
3. Abandonment of Right-of-way - Right-of-way may be abandoned if it is determined that the right-of-way is not required for right-of-way proposes or if the right-of-way is not needed for Department purposes.
4. Court Order

Correction of Description of State Highways

The Department recommends Commission approval of the correction of the description of sections of State Highway previously added to the State Highway System. The description of roads currently in the State Highway Secondary System may be changed for relocation purposes, to revise the description of the termini to show what was actually constructed by contract, county line changes, or a change in the secondary road number.

Additions to State Highway Secondary System

The Department recommends Commission approval to add sections of road to the State Highway Secondary System for construction and maintenance. The Department may add roads to the State Highway Secondary System by request of the County Transportation Committees contingent on mileage being available under the current mileage cap. Roads may be added to the State Secondary System by the construction of a new roadway, accepting existing county/city roads into our Secondary System by the swap method, or by county line changes. Roads added to the State Highway System must be constructed to Department standards or reviewed for compliance with Department standards.

Rescind Action Adding Roads to State Highway Secondary System

The Department recommends the Commission rescind its previous actions adding roads to the State Highway Secondary System for construction and maintenance. The Department may rescind action on roads, which have not been constructed and formally accepted into the State Highway Secondary System. Roads may be rescinded due to right-of-way being unavailable, problems arising during construction, or funding issues.

Transfer of Road between Secondary and Primary Systems

The Department recommends Commission approval to transfer sections of road from the Secondary System to the Primary System, or vice versa. Pursuant to the provisions of Section 57-5-50 of the Code-of-Laws of South Carolina, 1976, the Commission may transfer any route or section of route from the state highway secondary system to the state highway primary system, or vice versa, when, in its judgment, such transfer is advisable to better serve the traveling public.

THE COMMITTEE ON

INVITATIONS AND MEMORIAL RESOLUTIONS

To whom was referred a Concurrent Resolution (H. 4584) to request that the Department of Transportation name the portion of United States Highway 17 in Charleston County from its intersection with South Carolina Highway 7, etc., respectfully

REPORT:

That they have duly and carefully considered the same and recommend that the same do pass:

ROBERT W. LEACH, SR. for Committee.

A CONCURRENT RESOLUTION

TO REQUEST THAT THE DEPARTMENT OF TRANSPORTATION NAME THE PORTION OF UNITED STATES HIGHWAY 17 IN CHARLESTON COUNTY FROM ITS INTERSECTION WITH SOUTH CAROLINA HIGHWAY 7 TO ITS INTERSECTION WITH SOUTH CAROLINA HIGHWAY 171 THE "CHARLESTON NINE MEMORIAL HIGHWAY", AND ERECT APPROPRIATE MARKERS OR SIGNS ALONG THIS PORTION OF HIGHWAY THAT CONTAIN THE WORDS "CHARLESTON NINE MEMORIAL HIGHWAY" AS A LASTING TRIBUTE TO THE NINE CITY OF CHARLESTON FIREFIGHTERS WHO TRAGICALLY PERISHED IN THE WEST ASHLEY FIRE ON MONDAY, JUNE 18, 2007.

Whereas, Captain William "Billy" Hutchinson, Captain Mike Benke, Captain Louis Mulkey, Engineer Mark Kelsey, Engineer Bradford "Brad" Baity, Assistant Engineer Michael French, Firefighter James "Earl" Drayton, Firefighter Brandon Thompson, and Firefighter Melven Champaign who tragically perished in the West Ashley fire on Monday, June 18, 2007, deserve high tribute and honor for representing their city and department through courage, sacrifice, and dedication to their profession and their community, and will be missed by their beloved families, fellow firemen, and

friends; and

Whereas, the commitment, dependability, and expertise of these nine firefighters helped to ensure the safety of the lives of the citizens of their community; and

Whereas, these nine firefighters warrant our deepest respect and the commendation of their community and State for their extraordinary service and devotion to duty in this inherently dangerous profession; and

Whereas, these men had the opportunity to share in the strong sense of camaraderie that exists between those who accept the enormous risks of being a firefighter; and

Whereas, courage and endurance are an every day part of the profession of firefighting, and the service of the men and women of this profession requires many hours of sacrifice, training, and preparation to meet the stringent physical demands of their job; and

Whereas, these firefighters were members of the City of Charleston Fire Department, a Class I rated department consisting of nineteen fire companies located throughout the city; and

Whereas, it is fitting and proper for the members of the General Assembly to pause in their deliberations to honor the memories of these brave firemen by naming a portion of United States Highway 17 in their honor. Now, therefore,

Be it resolved by the House of Representatives, the Senate concurring:

That the members of the General Assembly of the State of South Carolina, by this resolution, request that the Department of Transportation name the portion of United States Highway 17 in Charleston County from its intersection with South Carolina Highway 7 to its intersection with South Carolina Highway 171 the "Charleston Nine Memorial Highway", and erect appropriate markers or signs along this portion of highway that contain the words "Charleston Memorial Highway" as a lasting tribute to the nine City of Charleston firefighters who tragically perished in the West Ashley fire on Monday, June 18, 2007.

Be it further resolved that a copy of this resolution be forwarded to the Department of Transportation.
