Lead Agency Designation Letter - Governor.doc

Christian and Josh,

As promised, here is a working draft for the grant so you can see the main ideas. We still have a good bit of work to do and are continuing to meet and refine with our partners. We have assembled a great group but plan to utilize the full 6 month planning phase allowed, should we be lucky enough to get the grant, so we can add additional partners as needed. You both, of course, will be kept apprised of progress.

I have also included the letter of designation that needs to be put on official letterhead and signed by Governor Haley. The due date for submission is next Wednesday, April 10, but hope to actually submit at COB on Tuesday, April 9th.

Please let me know if you have any comments, questions or concerns.

Thanks so much!

Sue

Subject: working draft

Gang,

I have to say that I am quite impressed with how this is coming together. The inclusions that everyone sent yesterday have made a huge difference. Attached to this email you will find a full 35 (actually 36) page version of the narrative for your review and comment.

I would ask that you pay particular attention to the OAH scoring rubric when you read this document to ensure that we have covered all points. That can be found on pp. 35-41 of the RFP.

Contrary to something that I said yesterday I would much prefer your comments in written form (old school writing on a printed copy)!!! Given the spacing, inclusion of charts, etc, etc I think that track changes could get a little messy. Sue/Amy, I have to leave the office today by 3:30. Any possible way you could have comments to me by then? We can have someone come pick them up. Jen, you can email yours if you would like or drop them off... I'll take one last run at this tonight incorporating all changes and have something ready for 1 pm tomorrow when I pass the torch to someone else!

Three other things of note:

- 1) We are about 1 full page over the limit so please look for places that are repetitive or don't add value. Special attention to the "Capacity" section... that is way too long right now. Our organizations are both so good it's hard not to brag! J This section needs to be cut, cut, cut...
- 2) Sue, the partner chart is still blank. You can email that to me if you would like.
- 3) Doug and I will be working on the work plan today. It is blank right now, but I inserted a full two pages so we have plenty of room to fill in activities, timeline, etc.

That's it for now. I will be sending the logic model and other documents for review later today.

Forrest

PS ~ Sue, I actually think this is in good enough shape to send on to Governor's office right now rather than waiting until tomorrow. You will want to read it first of course.
