Please feel free to have your lawyers contact me, Skip. I'd be more than happy to speak with them and share some key emails from and to you for the record. The record, fortunately, is quite clear on everything that has happened.

Most important, relative to your statement that I embarked on a "constant daily barrage of attacking unfounded emails," I was actually responding to the typical daily barrages from you. I think your lawyers will grasp the significance of that, since your entire existence for as long as I have known you -- and almost everyone on this email chain knows it -- has been defined by a "constant daily barrage of attacking unfounded emails" from you to half the state of South Carolina, including Governor Hailey (I added her to the CC list since you forgot).

And let's not forget your claim that you are the victim of a "massive statewide conspiracy" being led by Governor Hailey.

If I were you, I would have your lawyers worry about that rather than me, because if I were her I'd send the National Guard to your house to rough you up and then deport you to Georgia.

I look forward to being contacted so your lawyers can know some simple facts I assume they do not yet know.

And Skip, you did not fire me. That is another of your delusional lies. I quit - five times. Remember? Thankfully, the fifth time I quit was the final time.

And also don't forget it was you, not I, who made the last email thread public to the various elected officials and media people CC'd, not I.

And finally, now that you have stooped to trying to intimidate me with your lawyers once again, I look forward to being the star witness against you when the Likins lawsuit comes to trial. I have added her and her lawyers to this email chain.

And I stand by my longstanding prediction: If the Likins lawsuit goes to court, you will lose.

As for me, once again, Skip, you turned a former ally into a sworn enemy, as you have a unique and time-honored talent for doing.

If the SC Chamber or Beaufort Chamber, or anybody else for that matter, ask me to give a deposition if you sue them, I will happily do so. You need to be taught a lesson you will never forget.

John I have cced all my lawyers to take action against you for your constant daily barrage of attacking unfounded emails.

John you are a public nuisance and your negative sabotage emails just because I fired you will not work, and assume if this continues you will be considered harassing with intention to obstruct and harm the cases we are working on , as a past trusted contractor I hired.

Your pen as a journalist failed and the only way to achieve victory to stop crimes, violations and corruption is to file lawsuits and get legal rulings. You keep confusing issues with who likes or does not like me. I am just the messenger, perhaps not the perfect messenger but was the only one willing to speak up and spend to date 200k fighting corruption.

I ask you to remove me from all your emails and I am going to ask my Florida lawyer to send you a letter. In fact he is cced on this email so he can do so.

John you need to get a life and have some sick obsession with my cases. The law is the law and no one needs you as a very disturbed individual to tell them what the law says.

Patrick henry was David Bennett quote not mine. Bottom line is we have massive corruption and until the one act of audits of the chambers CVBs dmos is forced or done crooks and theft of public funds will continue. That's a fact !

Skip, do you honestly think Mayor Bennett or anyone else on the Town Council would join the Chamber on your advice as an "investigative" measure? That is just ridiculous.

My point was that IF you try to sue the HH Chamber, which I doubt will happen only because you have been threatening "massive" lawsuits and "national media coverage" for almost a year now without anything happening, I think the judge will decide that Ryan McAvoy did NOT join in good faith, but only because you asked him to (and you paid). In effect, that is an act of fraud, in my opinion.

I also suspect that a court might also rule that providing audited financial statements might be enough and that they do not have to open their books themselves, which I believe a court would rule is an unnecessary burden in terms of time and cost. You won't know until you sue and find out.

The same is true of the Beaufort Chamber kicking you out. You joined under false pretenses, not in good faith.

And that is also why the SC Chamber rejected your application.

Skip, as I have told you countless times, the reason you have failed at every turn is that you have acted in a way that alienated everyone who could have helped your cause, including me. It is a fact that no one in SC that has the power to aid you in any way will even talk to you or even respond to your insane and incoherent emails. That includes all public officials and the press. And that is your fault, not theirs.

Until you accept that and act accordingly, there is no hope for you.

As I said, you have just become a public nuisance. That's why I finally quit for good, after you attacked me (and recently made another vague threat to sue me, which is very funny).

And you really should stop comparing yourself to Patrick Henry. If his living descendants find out you are doing it, they might sue you for defamation -- and win.

You are wrong . The only way to see the financial condition of a private chamber or how the inner workings are conducted is join. Further once a member regardless you reason , your rights to access information under the non profit corporation act is undeniable. John your obsession outweighs the reality and rule of law.

Yes anyone who sues me , Ryan or anyone I know for a frivolous action I will pay and defend. I will not allow bullying or attacks on anyone I know to scare and silence them,

like was attempted on me. John you live in some radical democratic world at times. I have never seen anyone who can do so much good and then tries to attack the very thing they were fighting for. Very strange and I am not trained to understand this, just defend facts and reality.

So John if Mayor Bennett joins and lawyers join to say my reason to join is I want to end the controversy and get complete access to the books. And further go on to say to end the chambers constant denial for transparency, that has and is causing disruption to our community, and see who is a crook once and for all Skip Hoagland or Bill Miles, Is the chamber going to deny and sue the Mayor ??????? This alone will now prove who David Bennett really is Patrick Henry or a weak Mayor politician in fear and controlled by Bill Miles and other local crooks.

What's interesting is why no one on council or the Mayor has done this to force transparency ??? Mayor Bennett let Bill Miles tell him to basically go to opposite of heaven when asked to audit ? Now he has a chance to redeem himself, like me and others. Like I keep saying I do not care who likes me, I care about cleaning up corruption.

Marc / Lee / David Ames why would you not join and seek access to end this under the non profit act ?

Why would our local politicians not join and ask for access ?

Why would anyone even existing member not do this ?

I know some of the answers, but not all !

Again stop talking about me ! Talk about the issue, not the messenger. I am not and never have tried to win a personality contest. Thanks

Here's your problem with the SC Nonprofit Act. The whole thing was done under false pretenses. Ryan did not join as a legitimate member, he joined because you paid his membership fee and tried to trick your way into the financial records.

Any judge or Chamber lawyer will see through that in a second and your case will get thrown out. That's my new prediction.

And I wouldn't be surprised if the Chamber tried to sue Ryan for fraud. Are you going to pay his legal fees?

Wait and see.

You're unbelievable, Skip. It's funny at this point how totally clueless you are.

If you don't, you have to admit I was right.

Fair?

Yes all your ideas , my ideas combined and I agree with all. This will all continue as I have always said in lawsuits, it has always been the only way. To think you can be nice to someone and their will hang themselves is 100% delusional. Meeting with Tecklenburg will happen and all lawsuits will be filed. Fighting crooks with a pen does not work and why we decided to pull the plug on all that

Was it my idea to have Peter head your "CVB?" No, it was your idea and I told you he would not get any funding because he had zero qualifications to run a CVB. But you didn't listen and what I predicted came true.

Was it my idea to attack Bennett?

No, it was your idea and that is why even though he personally supports and audit of the Chamber, he abandoned and then banned you (and voted for a permanent ban as the only vote).

Was it my idea for you to send threatening emails to Ed Riggs at TERC after I talked to him for almost an hour and had him

willing to look at investigating the app? No, it was your fault and you did it AFTER you promised me you would let me handle it (I have that email).

Was it my idea for you to send your rambling and incoherent emails and documents to Tecklenberg after I had talked to one of his head people for an hour and had a meeting all set up? No, it was your fault. You have blown it every single time, Skip, after I made my effort and had something going on. If you do not admit that, you are either a liar or just delusional.
