Dear Honorable Haley,

I am writing during this very busy time when there is much disaster in your state. Everyone is in our prayers. During this time, I am unable able to help my mother that is 71 years old. I am a disabled veteran with PTSD and have lost two jobs this year because I have had a very emotional year. This being said, my mom's roof is in danger of caving in due to the water damage. I am not sure if there is anything you or FEMA can do, but if there is, I am begging you please help my mother before she loses her home. She only lives on social security. She has given to everyone else all her life and now in her time of need, I ask please send her help.

Her name is:

Joyce Stewart

Thank You,

Julia Jacobs
