Have you ever heard of hardtack? Ranger Russ from The Battle of Rivers Bridge is here this morning to tell us about this "army bread" that was provided to soldiers during the Civil War. It's been around thousands of years! Learn more about it in this video.

Hardtack - Army Bread

Tye Cobb it used to be if we got nuked we had plenty of this to eat. I once got a tin of 1950 bread (30 years old) and it still tasted as delicious as the day it was made...

Joyce Zaleski This is so very interesting. I never realized how hard tack was made or how it was used as rations in the Battle of Rivers Bridge and throughout the war. Your excellent narration and illustrations created such strong visual imagery both of battle conditions and of the struggle for survival. Thank you Ranger Russ.
