Good Morning Ms. McNicoll.

I wanted to pass along a brief update to my message of yesterday to let you know that on Tuesday afternoon, we received an email from Mr. Daye at Auto Owners' Insurance that the clonidine prescription for my current patient has been approved. This solves the current dilemma for this one patient but the overall problem of Comp carriers arbitrarily dis-approving currently-prescribed medications without consideration of the dangers of abrupt cessation remains.

Any assistance you can offer us with this matter will be greatly appreciated.

Let me know if I can provide any more information to you or your staff.

Thank you,

Mike Grier, MD
