

Cultural Resources Project Screening Form

File Number: PIN: Route: County:

Project Name:

Type 1: Resurfacing, installation of fencing, signs, pavement markings, traffic signals, passenger shelters, railroad warning devices, installation of rumble strips, and landscaping

Project Type

Type 2: Bridge replacements on alignment, construction of bicycle/pedestrian facilities, and intersection improvements

Type 3: Projects that do not fall into Type 1 and Type 2 categories (e.g. road widening)

Comments

This project involves the installation of a shared-use path along S-172 (Bonner Ave) in the town of Santee. The path will begin at the intersection with US-Route 15 (Bass Drive) and extend 375 meters south along the west side of S-172. The Area of Potential Affect (APE) was reviewed using ArchSite, Google Earth, USDA Web Soil Survey, and historic topographic maps. No previously recorded cultural resources are located in or around the APE. A cultural resources field survey was conducted on 10/2/19, which consisted of shovel testing and surface inspection. Much of the APE was disturbed by the presence of a road ditch and graded shoulder. A total of 7 STPs were excavated, all of which were negative. One new cultural resource was recorded (Site No. 0370). The site, a store constructed in 1967 and currently known as C M Food Mart, was evaluated as not eligible for the NRHP. No additional cultural resource investigations are recommended. No historic properties will be affected by this project.

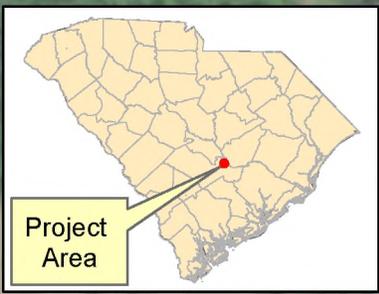

Effect Determination:

*SHPO consultation is required for all Type 3 projects and any project with a No Adverse or Adverse Effect Determination.

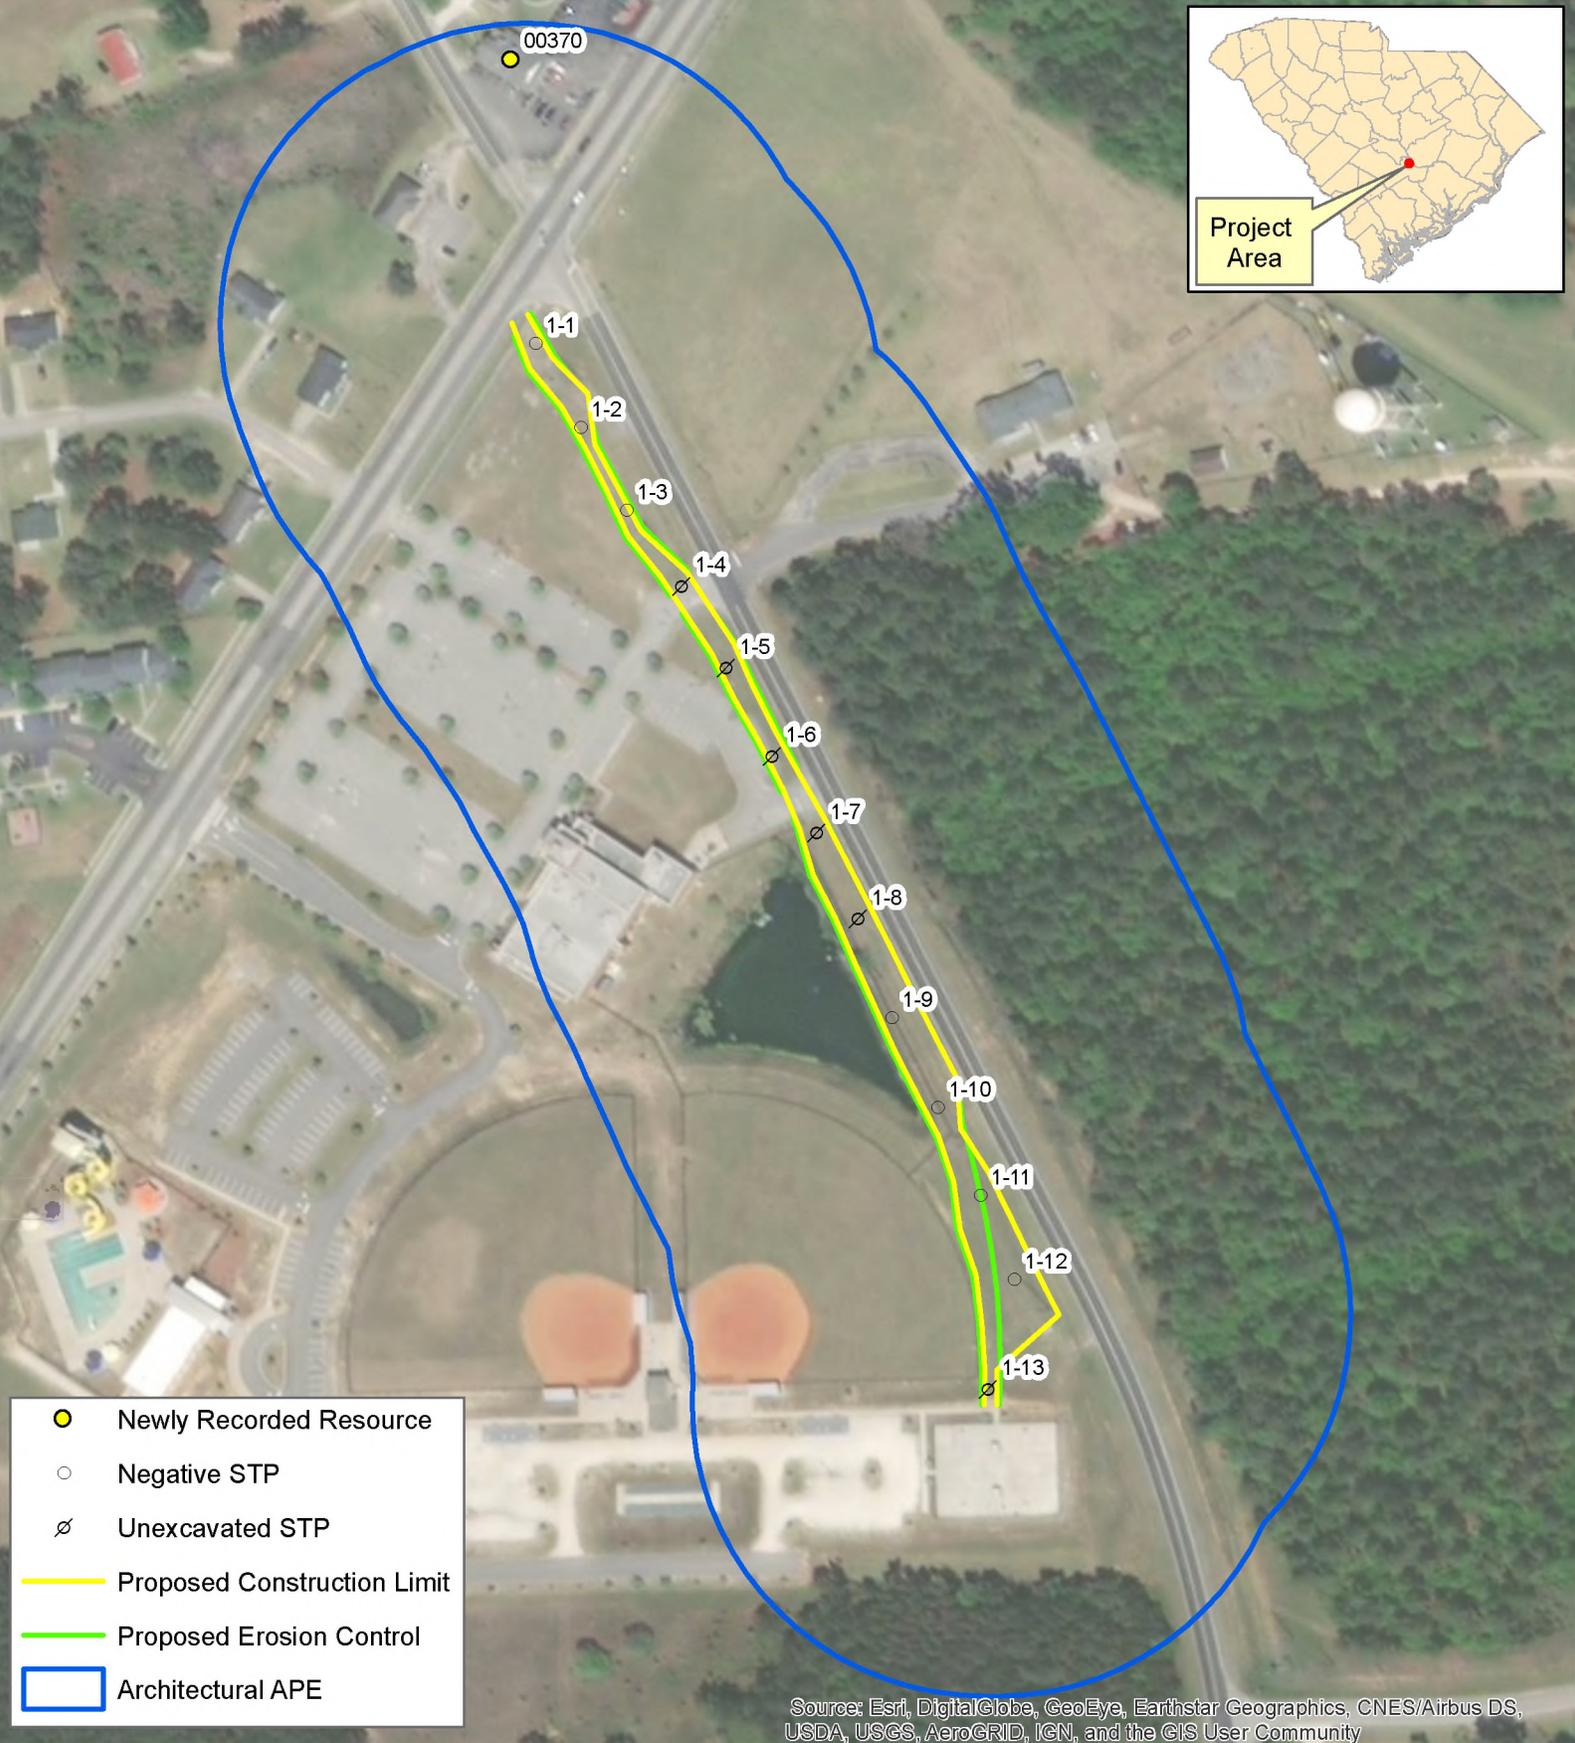

This screening form was developed to satisfy documentation requirements for Type I and Type II projects under a Programmatic Agreement between the Federal Highway Administration, the South Carolina State Historic Preservation Office, the US Army Corps of Engineers, and the South Carolina Department of Transportation. For Type I and Type II projects that have no effect on historic properties, the completion of this screening form with supporting documentation (e.g. ArchSite Map) provides evidence of FHWA and SCDOT's compliance with Section 106 of the National Historic Preservation Act.
