Beavercreek, OH 45440  
September 20, 2015

The Hon. Nikki R. Haley  
Office of the Governor  
1205 Pendleton St.  
Columbia, SC 29201

Dear Governor Haley:

I may not reside in the state of South Carolina, but I am a registered voter who has lived in the "swing state" of Ohio his entire life. I am troubled that an office has been established in Columbia in your state to process the refugees President Obama wants to import from Middle Eastern nations, including Syria. I worry that savages from the Islamic State group, also known as ISIS, could be planted in your community and even behead Christians as we know is happening in the Middle East. I have not read anything assuring me that the refugees' ties to such death cults will be checked. I would not be surprised given reports saying that many of them will be between the ages of eighteen (18) and twenty-four (24) years of age, which is a prime range for members of our military.

I ask that you work to stop this invasion not just of South Carolina, but also this country.

Sincerely,

James C. Schul
