With all of the rain we've had, frogs and toads are everywhere! Have you noticed? The earth has been refreshed and creatures abound. Check out this cool photo by Ranger Patrick Boxx from Santee State Park.

Barbara Miles Cawley Masaki Have to get out of the car and shoo them so I can pull up the driveway into the garage...lots of snakes too!

Tara Cheshire I've had two frogs in my bedroom. Fortunately the fly swatter took care of one. I couldn't get the other.

Pee Dee Folks It is a welcome comeback for my husband and I. We've been missing our "peepers" the past couple of years. Don't forget they eat flies and mosquitoes.
