Subject: Update

---

OK, V11 is out there. Spent the last two nights closing out some decision points and doing LOTS of proviso work. Lots of highlighting is gone, which is good. I didn't touch the intro pages at this point.

Also, there's a doc called "Decisions Needed" out there, which is little more than some copied-and-pasted provisos to talk through with her Monday.

Sunday night's gonna be about transportation on my end.
