White As Snow With Ability To Pigment/Depigment

The Black Aboriginal People of Pakistan, Hindustan, Iran, Africa, Middle East, Europe, etc. are very different from Caucasian people who are the progenitor people of those same countries.

In fact, many Caucasians have the ability to pigment/depigment according to ultraviolet light exposure, which REVERSES damage caused to skin.

Not every Caucasian is an Anglo or Celtic person who is depigmented to the extent of having damaged skin that cannot produce adequate protection.

Dunderhead Zaru is a JOKE. Get thee to the tanning salon! Even Melania and Donald know better than you.

REGARDING DEENU ZARU'S ARTICLE, I AM CAUCASIAN.  
I SUFFER REVERSE RACISM IN AMERICA DUE TO BLACK, MEDIOCRE HINDUS AND MUSLIMS  
FROM INDIA AND PAKISTAN, AND STUPID EVIL JEW-CHRISTIANS.  
YOU BETTER GET YOUR BIG, FAT, UGLY, PORKY, DEPIGMENTED FACE AROUND THAT.

I am concerned with Deena's politically ignorant statements.

If the Governor of South Carolina produces a healthy tan with slightly more melanin than an unhealthy person who cannot respond to Ultraviolet Light exposure, does that make her a person of color? This is an absurdly and stupidly repugnant statement by Deena. Look at where the Caucasus mountains are on a map with respect to where the Randhawa family hails from in Panjab and the Himalayan Mountains. Her relatives who are from that region are Original Caucasians.

What is Deena Zaru smoking? Nikki Haley is a woman of color? If you did an actual comparison, she is more "white" than most women. It's ridiculous. And it's an insult to Caucasian people.

Nikki:

Have some  
brains. SS is  
better than  
the UN.

The UN is an  
utter joke.  
Nobody  
needs it.

Beat  
Romney.
