Good Afternoon,

As a reminder, we will be hosting a conference call tomorrow, **Wednesday, December 3<sup>rd</sup>** at **3pm eastern time**, to discuss current issues relating to the Medicaid Home and Community-based regulations. During the call, we hope to have a robust dialogue from states, and provide a forum to discuss current issues with the new settings requirements in the CMS HCBS regulation. So please plan to join the call, and be prepared to share your own state experiences.

Particularly, we would like to discuss:

- State HCBS transition plans, and current issues with CMS approval.
- Nonresidential services: how do you plan to assess for compliance?
- Nonresidential services: do you have concerns about how Adult Day Health services will be impacted by this regulation?
- Residential services: how do you plan to demonstrate compliance with the requirement that all HCBS participants live in settings that meet CMS requirements, even if their residences are not Medicaid-funded?
- Residential services: how are assisted living, memory care units, and other specialty care providers impacted by the regulation in your state?
