Subject: Dept of Consumer Affairs - Budget Format

---

Les,

We met with DCA this morning, and asked them to think about proposing to restructure their budget in order to roll their legal, consumer affairs, and other related services into a new "II. Programs and Services" umbrella, with the components to be demoted from roman numeral to letter status (the current III. would become II.B., for instance).

They'll likely run the concept by your analyst...just wanted to give you a heads-up that we'd discussed this. I explained that there's an approval process for such requests, etc. Thanks.

CLS
