Thank you . So for Medicaid it's the same response as last year if they want to prohibit a provider who perform abortions from Medicaid, the state will have to come up with the federal share of family planning expenditures?

Christian is right. This issue involves Title X funds which are administered by DHEC.

Some new regulations went into effect on January 18, 2017 (under the Obama administration) which require that any Title X recipient (DHEC)

subawarding funds for the provision of Title X services not prohibit an entity from participating as a subrecipient for reasons other than its ability to provide Title X services.

H.J.Res.43 is a joint resolution which nullifies the new regulation. This means that it will be up to states to decide if abortion providers such as Planned Parenthood can access Title X funding.

Importance: High

Hey,

CLS rec'd. an email from Angie Willis (SenateFinance) this morning saying inquiries are starting to roll in after the action taken by Congress last week. She is asking if we've had a chance to determine what the legislation specifically dealt with and for Medicaid to exclude them as a provider will that take action?

CLS says will you take a look at that for him? He says that he thinks it is DHEC and not Medicaid. It will be helpful if you can let us know.

Thanks! Jan
