I am a writer for the Homefront United Network - support website for military spouses & military families of Guard, Reserve, and Coast Guard. I wanted to inquire about setting up an interview with the Governor about her experience as a military spouse and advice for other Guard spouses about pursuing their own professional aspirations around the demands of their service member's career. I have bylines in The Daily News, Onslow Times, Military Spouse magazine, GI Jobs, among other military-affiliated publications. I am based out of Camp Lejeune, NC & can either do the interview in person or on the phone. My deadline is March. Thank you for your time.
