Sid and Lora Lee,

I think Zenda requested more detailed vehicle information, and we have sent that to her. The following is in response to the request earlier today:

Licensed Drivers:

1980	2,045,062
1990	2,330,975
2000	2,349,106
2001	2,910,209

Registered Vehicles:

1980	2,069,809
1990	2,577,842
2000	3,182,390
2001	3,210,578

Beth has e-mailed both of you the budget statistics since 1994 and the population growth bar chart. By 1:00, we will have finished the chart showing all of the unfunded legislation since 1993. This should show how the workload has increased.
