**Subject:** New Resource Guides: Advance Planning for People with Dementia

---

Dear ADSSP and ADI-SSS Grantees and Collaborative Partners,

The National Alzheimer's and Dementia Resource Center is pleased to provide you with newly developed advance planning guides. The guides emphasize the importance of planning for people with dementia and cover four topics:

- 1) financial planning;
- 2) health care planning;
- 3) planning for daily care needs; and
- 4) making financial and health care decisions for someone with dementia.

The first three guides are written for people with dementia, using plain language to focus on key points and providing links to additional resources, and the fourth guide is intended primarily for family members. We encourage you to use these guides in your grant projects and to share them with others.

The guides are available at <https://nadrc.acl.gov/node/96>

Thank you,  
National Alzheimer's and Dementia Resource Center
