Dear Ms. Haley,

I need your help. I have a thirteen year old grandson that has ADDH, Bipolar disorder, Obsessive-defiant disorder, and a hand tremor of unknown causes. He has been denied repeatedly by Orangeburg District 4 for any help. We had to go outside the school to get a psychological test for John "Cory" Crosby. All his teachers say needs help with his handwriting and some have suggested occupational therapy. The school will not provide it because he is passing his subjects. I help him with his studies and take him to a tutor once a week.

He is socially awkward and has very few friends according to his teachers. This also has the capability of becoming a handicap when he gets older. It is impacting his life even now. He has no concept of personal space.

I don't understand how a district that I pay taxes in, dad pays taxes in, and the tutor pays taxes in, can refuse to help him. Please, please help us for Cory's sake. He needs this help now so that he can become a successful individual and not a statistic on welfare.

Sincerely yours,

A handwritten signature in cursive script that reads "Janice Jones". The signature is written in black ink and is positioned below the typed name.
