Free Webinar:

Restorative Justice - Guiding Principles for Communities & Organizations

Each month CTRI offers a complimentary webinar.

How do we respond meaningfully to harmful or criminal actions? Based on the principles of restorative justice, this webinar offers a framework for answering this question as it relates to your own context. The timeless philosophy of restorative justice focuses on the needs of everyone involved, emphasizing direct accountability, reparation, prevention, dialogue and, in some cases, renewed relationship. If you work in a community, school, government or other organizational setting and make decisions about how to respond to harmful actions, this webinar will provide you with insights for incorporating restorative justice principles into your environment.

Special Event: Restorative Justice Facilitator Training

Banff, Alberta, Canada: April 8 - 10, 2015 (*early rate deadline March 8*)

Chicago, Illinois: July 7 - 9, 2015 (*early rate deadline June 7*)

Restorative justice is a response to harmful incidents that seeks the direct inclusion of all involved in efforts to meaningfully address the harm and foster renewed relationships. Drawing on the work of Canada's original restorative justice pioneers and best practices around the globe, this national training event will deliver the essential skills of convening harm-focused dialogue processes within organizational and educational settings.

This special 3-day training is offered in partnership with the Fraser Region Community Justice Initiatives.

CTRI is also offering the following 1 day in-person public workshops:

Restorative Justice - Guiding Principles for Communities and Organizations
