We are writing to tell you about changes in your Supplemental Security Income (SSI) payments. The rest of this letter will tell you more about this change. This letter also includes how to find information about affordable health care.

We explain how we figured the monthly payment amount on the worksheet at the end of this letter. The explanation shows how your income, other than any SSI payments, affects your SSI payment. We include explanations only for months where payment amounts change.

Information About Your SSI Payments

- The amount due you beginning January 2015 will be \$733.00.
- The amount due you is being raised because the law provides for an increase in Supplemental Security Income payments in January 2015 if there was an increase in the cost-of-living during the past year.
