Subject: RE: State Employee Payroll deductions

Holly,
We sent communications to all of the agencies a few months ago. We asked them to determine the employees willing to participate and send their names to the State Human Resources Division. State law requires at least 200 employees be committed to participate in order to add a payroll deduction. The CG is very willing to work with us once we receive interest from the 200 employees. As of today, HRD has received names of 167 employees from 23 agencies. We can send out another communication encouraging agencies to remind their employees about this option in case there are others that are interested.

Subject: State Employee Payroll deductions

Holly,

We received a call from Jenna Thompson who works for the Department of Safety about getting on the Controller General's payroll deduction list. Jenna said 200 employees had to participate before they could take payroll deductions to support the flood fund. She was informed she needed to call our office so that we could track the names to give to the controller general. We were not aware of this program and I doubt we are the ones that need to be tracking the names as we are an outside agency.

Do you have any information on this I can share with her or future employees that may

call?

Thanks!

Dana
