Now it's Paris. As professionals, we need to prepare as if our city or town is next.

New technologies such as Smart911 Facility and Rave Panic Button can help you protect critical infrastructure and non-traditional soft targets while enhancing normal emergency procedures.

During this 30 minute webinar discover how the Smart911 Platform:

- Immediately, directly notifies you of active shooter incidents
- Automatically delivers floor plans, emergency response plans, and more information about schools, hospitals, theaters, places of worship, and government facilities
- Enhances situational awareness and saves lives
