Mr. Wiles called the meeting to order and then gave the invocation. Everyone stood and pledged allegiance to the flag.

Mr. O'Neal gave the road maintenance activity report for the period June 16 - June 29, 1984. The county received 268 work orders and completed 219 for this period. He reported that the bridge crew completed work on Brown Road Bridge and a handicap ramp was built at the DSS Building on Benson Street side.

Mr. O'Neal explained that the trussell bridge on the Anderson/Greenville County line would be opened back up by Greenville County until October 1 if it didn't cost anything. During this period they would determine if the use of the bridge was enough to keep it open. Mr. Walters told the Council that the State Highway Department's evaluation/inspection found that the bridge needed painting, "I" beams cracking and recommended no heavy traffic. He said the bridge could be repaired but he had no estimates at this time. Mr. O'Neal recommended that the bridge be opened to light traffic (after receiving a letter from Mr. Sanford that the bridge is safe for light traffic) get an assessment from Road Maintenance as to the price for repair, and then negotiate with Greenville to share expense. Mr. Alexander moved that the Administrator's recommendation be accepted and to do these as soon as possible. Mr. Gilreath seconded. Vote was 5-0.

Mr. O'Neal had Mr. Jerry Brown give a brief run-down on the reasons for the Compensation Classification Plan for Anderson County which is scheduled for completion in February of 1985. Mr. Brown is a representative from the Appalachian Council of Governments who are doing the study.

Mr. David Bevell told Council that he spoke with Stephen Neil, Manager of Utilities, for the Town of Easley, he confirmed that the potential siting for the waste plant was the area near Brushy Creek Estates as reported earlier, and the reason for this location was stream degregation. Mr. Alexander asked Mr. Bevell to see that the City of Easley build this in their own town. Mr. Alexander moved that a Resolution stating that County Council goes on record as 1. directing that no building permit be issued until further information is secured, 2. Sewer Authority be given permission to investigate the matter further and report back at the next meeting as to why the location was changed, 3. and Anderson County opposes any type Federal funding for a project in Anderson County. This group is not against sewers for Loblolly Pines subdivision, however they are against the bond issue and tax as proposed. They feel that sewers can be provided at a reasonable cost. He said 41 names were not written by the person named. Council received Mr. Freeman's remarks as information.
