No draft yet, but I've talked to DMH about the need for it. I'll get you something in the next couple days.

All good here.

Christian, Do you have talking points and background for this event? I'd like to put them in the briefing.

I called John Magill to let him know we were tentatively OK with using his conference room, but that someone from our office might want to see it in the next day or so.

Also, he asked that Jeff call him first (898-8319) to discuss the plan for the event. Ultimately, he's likely to hand you off to Ed Spencer (who I don't know and don't have contact info for).

Like I said earlier – it takes them about 4 days to reserve and set-up the equipment in their conference room. Also, they already have plans to have some boards made. Thanks.
