---

Athena,

Attached are the next set with the data processing sheet and list, and also the auto policy. On the data processing, I included all electronics including TV (media room). We are right at \$51,000. I don't know if that is a range choice so if we need to stay at \$50,000 that is fine.

On the last spreadsheet with employees, I did not include the Governor in the total. Is that right? I can send that once you confirm. I did include students (3) all of whom are at USC. We sometimes have a summer intern from Harvard in the mix from a program there but usually still at 3 number. I know school matters. We have no volunteers.

Richele
