Hi Ted,

I'll be happy to discuss your plan with you when you have a few minutes. But my memories of the USS Laffey loan are still painfully vivid. I'm naturally inclined against the Board intervening in matters like this when other options are available. Why in the world isn't the legislature dealing with it?

Richard,

I think there will be something in the budget effective July 1st. I doubt it has the sort of oversight our proposal has.

The thought is provide a loan for only a portion of what is needed and tie to strict oversight which hopefully changes behavior.

Strong emphasis on "draft." We're still assessing some of the most recent information from SCSU and from the IG's report. Thanks.
